CASE STUDY: KINGS SCHOOL, AL BARSHA

“ Stephanie Connolly - Learning support teacher says

“The C-Pen Reader 2™ took away those stresses that students that use it, have built up with regards to reading. I would highly recommend the C-Pen Reader 2™ to any school who is aiming to become a dyslexia friendly school. I would also recommend to parents who have children with reading difficulties to increase their confidence and comprehension ability.”

“ The British School of Barcelona - Case Study

“The Learning Support department have recommended some families to buy the C-Pen Reader 2™ for use at home, and there are plans to purchase more Exam Readers in the near future as more and more students are requiring it for exams. In addition to the benefits of using the Exam Reader for our students, we are grateful for the training provided by Scanning Pens.”

BATH SPA UNIVERSITY FINDINGS

“There is clear indication that many of the participants did benefit from development of vocabulary, reading comprehension, confidence and independence through the six weeks of pen use, particularly when given the freedom to use them both at home and at school.” Bath Spa University, Mortimore, 2018
