3 Easy Steps to Order Tender Products

1

Find the right products to suit your needs.

Ask one of our in-house speech therapists, assistive technology specialists or blind & low vision support staff to assist you in finding the right device to suit your needs.

2

Make sure your institution has signed up.

1. Go to www.editmicro.co.za
2. Hover over the tab "RT275-2024 Tender"
3. Click on "RT275-2024 Treasury eTender"
4. Click on the participation button to download the form.

3

Place Your Order

After you have consulted with one of our therapists and applied to participate in the tender, you can place your order. You can send your wishlist to any one of the EDIT staff members and we will send you a quotation. Alternatively, send us your Purchase Order. Please include institution's contact details and the item numbers of the products you wish to purchase.

Low-Tech Communication and Literacy

Free Online Training & Support on Products Purchased from Edit

Product Description	Price	Product Code
---------------------	-------	--------------

Fabric Literacy Strip - Single

R376.00 (incl.VAT)

RT275-01-001

Loop fabric display panel attaches to books with an elastic strap. Double-sided design allows you to store extra pictures on back. Helps promote interaction and eye-contact during reading lessons.

- Attaches to any book for hands-on interaction to promote language & reading skills.
- Single Strip for use at the top or bottom of the book.
- Adjustable elastic straps to fit books from 8" to 12" in height
- Simply slides easily onto front or back cover of a book
- Made with the Loop (fuzzy) side of Hook & Loop on both sides of strip
- 9 1/2" W x 4" H

Literacy Flip Strip - Black Fabric Pages

R812.00 (incl.VAT)

RT275-01-002

Simply add pictures or words and flip to create a new sentence every time!

- Expandable design - add more pages with a set of 8 additional pages.
- Each Set includes a total of sixteen 4" x 4" pages
- Made of loop fabric pages
- Pages are grouped in sets of four, aligned horizontally
- Mounted on a plastic stabilization board with metal rings for durability.

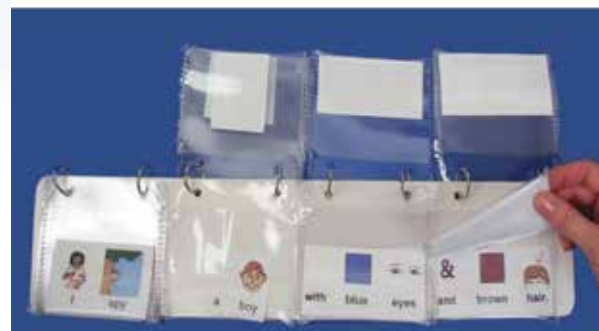

Literacy Flip Strip - Clear Pockets

R975.00 (incl.VAT)

RT275-01-003

Simply add pictures or words and flip to create a new sentence every time! Each Set comes with a total of sixteen 4" x 4" pages

- Made of clear pocket pages to slip pictures in - no laminating needed
- Pages grouped in sets of four, aligned horizontally
- Pages affixed to plastic stabilization board with metal rings
- Optional - you can choose to add more pages

Low-Tech Communication and Literacy

Portable Waist Communicator - Fabric

R707.00 (incl.VAT)

RT275-01-004

Wear around waist and flip to communicate with pictures or words.

- Equipped with Six 4" x 8.5" VELTEX Brand Fabric pages that accept Hook Fasteners
- Two Hook and Loop tab closures for easy opening/closing
- Zipper on outside cover for personal items/extra pictures
- Outer cover made of durable nylon, available in six colours
- Back of cover includes loops to fit any belt up to 2" wide
- Belt not included-webbing belts sold separately

Wrap Around Communication Activity Mat with Clear Removable Covers

R895.00 (incl.VAT)

RT275-01-006

Use on a tabletop or on the floor. Leaves room for an activity in the center with pictures all around. Can also be used as a gaze board on a flat surface, placing a picture on the top and both sides.

- Both sides are usable for quick activity change or extra picture storage! Use Loop Fabric surface alone or place protective, removable clear cover over with no need to laminate. Good for messy activities and mealtime.
- Loop Fabric Measures 14 1/2" on sides and 23" along the top.
- Width of strips are 4 inches.
- Both sides are usable.
- Comes with removable clear cover that protects both sides.
- Can be folded in half for easy storage.

Portable Choice/Display Board

R1,693.00 (incl.VAT)

RT275-01-007

For choice-making, displaying sequential activities, or storytelling.

- Made of VELTEX Brand Loop Fabric on the inside surface (48" x 16" when open)
- The outer cover is made of durable, easy to clean nylon fabric.
- Equipped with webbing carrying handle
- Hook & Loop closure can be reversed to allow the Portable Display Board to stand upright or angle sides forward for larger standing display area.
- Reverse the VELCRO closure and display the board upright for an even larger display area

Low-Tech Communication and Literacy

Portable Object Communication Unit

R1,772.00 (incl.VAT)

RT275-01-008

Carry this fabric object communication board here, there and everywhere! The 6" deep binding also makes it ideal for large switches.

- Equipped with an adjustable webbing handle for comfortable carrying, and Hook & Loop closures.
- Stiffened, extra wide binding accommodates objects up to 6" in height.
- Measures 30" x 15 1/2" when open and 12" x 15 1/2 x 6" closed
- Features a VELTEX Brand Fabric surface inside and waterproof nylon material outside.
- Re-inforced with a plastic board for stiffened surface.
- Objects not included

Fabric Picture Schedule with Pocket - Horizontal

R396.00 (incl.VAT)

RT275-01-009

Display a sequential picture or objects schedule of tasks or activities.

- Loop fabric schedule
- Grommet (s) at top for hanging
- Spacious nylon pocket for storing completed activity pictures
- 20" x 4"

Fabric Picture Schedule with Pocket - Vertical

R396.00 (incl.VAT)

RT275-01-009

Organize and display tasks or activities using a sequential visual schedule.

- Loop fabric schedule
- Grommet (s) at top for hanging
- Spacious nylon pocket for storing completed activity pictures
- 20" x 4"

Transparent Eyegaze Frame With Stand

R930.00 (incl.VAT)

RT275-01-010

Clear screen to allow your own choice of letters, words, images or symbols to enable communication at a glance!

- The Frame is a portable, lightweight and sturdy, No-Tech communication solution for people who have reasonably good eye pointing skills. The frame is a rectangular sheet of clear Perspex (with a central square hole) to which symbols can be easily attached that can be mounted vertically such that it may sit on a desk or table top.

Communication Devices

Free Online Training & Support on Products Purchased from Edit

Product Description	Price	Product Code
Echo MegaLoop Pro with Remote Control	R3,700.00 (incl.VAT)	RT275-02-020.4

The Echo MegaLoop Pro is a high-performance hearing loop system, ideal for users who require enhanced sound clarity from TVs and audio devices. Designed with an integrated digital audio converter and a remote control for added convenience, this system makes it easy to connect to modern digital televisions using Toslink, coaxial or phono inputs.

Providing excellent coverage and independent volume control, the Echo MegaLoop Pro is perfect for use at home, in care settings, or in small meeting rooms. The system supports loop areas from 16 sqm up to 90 sqm, delivering consistent performance in accordance with BS EN 60118-4:2006 standards.

Key Features:

- Integrated Digital Audio Converter – Easily connect to the digital optical output of modern TVs.
- Includes Remote Control – Simple adjustment of volume and tone to suit your preferences.
- Large Room Coverage – Ideal for spaces from 16 sqm to 90 sqm, depending on cable size:
- 16–40 sqm: 0.75mm² CSA cable
- 40–65 sqm: 1mm² CSA cable
- 65–90 sqm: 1.5mm² CSA cable
- Flexible Installation – Use with Toslink cable (supplied) or coaxial/phono inputs.
- Loop Wire Compatible – Expandable loop coverage for wider areas with reduced signal strength as required.
- TV Compatibility Guidance – Some TVs disable internal speakers when using audio outputs. To hear sound via hearing aids and speakers, enable "Audio Out and Speakers Simultaneously" where available or consult the TV manufacturer.

Echo Port-A-Loop Portable Room Loop System

R10,300.00 (incl.VAT)

RT275-02-021

The Echo Port-A-Loop system provides an induction loop system that is both portable and flexible. Rooms of up to 100m² in size can be looped. If the system is required regularly in the same room, the 38m reel of standard loop wire can be fitted permanently in order to save time when setting up. The tangle free wire is 25m in length and is easy to tidy and run around the edge of any area when setting up your system.

The loop pad offers an ideal solution for looping smaller areas such as a desk or a chair, negating the need to wire the room. Portable Loop systems can be useful as the lower cost and flexibility, make them ideal for smaller organisations or people on the move.

How does it work?

- The microphone feeds the speaker's voice into a MegaLoop amplifier.
- The amplifier drives a current into the tangle free loop.
- As the current flows through the cable, it creates a magnetic field in the required area.
- Inside most hearing aids a small coil known as a telecoil picks up the magnetic field signal, which is amplified into a high quality sound signal delivered directly to the ear of the hearing aid user.

Communication Devices

QuickTalker FT 7

R5,250.00 (incl.VAT)

RT275-02-018

The QuickTalker FeatherTouch 7 speech device provides multi-message communication that is highly portable, durable, and easy to use. The FeatherTouch membrane responds to the lightest touches and smallest fingers, making it easy for almost anyone to communicate. QuickTalker FeatherTouch 7 includes 23 unique messages available across five recording levels and provides an individual with robust communication options throughout the day.

Common Uses:

- For the three core messages that remain the same on every recording level, record common requests such as "I need help", "I need to use the bathroom", and "I'm thirsty"
- Record messages like "turn the page", "look", "I like this", and "I want to stop" for use when reading a book
- Use each recording level to record messages based on the environment such as the classroom, lunchroom, playground, bus, and at home.

Technical Specifications:

- | | | |
|---|---|---|
| • Messages / Recording Levels: 4 + 3 core / 5 | • Activation Surface: 3 core messages 2.2 x 1.2 -in (8.6 x 6.7-cm); 4 unique messages 3.4 x 2.6-in (5.5 x 3-cm) | • Battery Type: 4 AA |
| • Recording Time: 6-min | • Weight with Battery: 26.4-oz / 748-g | • Accessories Available: No |
| • Switch Input: No | • Symbol Overlays: No | • Mounting Connection: No, includes carrying handle |
| • Toy/Appliance/ECU Output: No | | |

QuickTalker FT 12

R5,250.00 (incl.VAT)

RT275-02-018.2

The QuickTalker FeatherTouch 12 speech device provides multi-message communication that is highly portable, durable, and easy to use. The FeatherTouch membrane responds to the lightest touch and smallest fingers, making it easy for almost anyone to communicate. QuickTalker FeatherTouch 12 includes 48 unique messages available across five recording levels and provides an individual with robust communication options throughout the day.

Common Uses:

- For the three core messages that remain same on every recording level, record common requests such as "I need help", "I need to use the bathroom", and "I'm thirsty"
- Record messages like "turn the page", "look", "I like this", and "I want to stop" for use when reading a book

Communication Devices

Go Talk Fit

R1,685.00 (incl.VAT)

RT275-02-005.2

This is an amazing tool for students to use in school. It can be used in the classroom to communicate wants/needs or for students to show the teacher what they know in specific classes throughout the day. Easily programmed for three classes in the morning and then can be re-programmed to reflect 3 more afternoon classes. Its ideal for helping children to improve receptive language skills, serving as a reminder for items needed for particular sporting event or use it expressively to ask coaches questions during practice sessions.

Its compact size and clear volume allows individuals to access and communicate within their communities. This tool can be paired with other communication devices or methods to support students multi-modal communication needs.

Features:

- 4-or 9-message capability on each of 3 levels
- Enhanced sound quality
- 20 seconds of recording time per message
- Change overlays with ease
- Easily fits into your hand or pocket
- Size: 5 1/4 x 2" 1/2"
- Weight: 3 ounces
- Includes AAA batteries

GoTalkFit

Go Talk Select

R4,110.00 (incl.VAT)

**RT275-02-010
RT275-02-011.2**

Keep this wearable, augmentative and alternative communication (AAC) device with you using the clip or lanyard (both included) or carry it along in your pocket. It is small, light, and rechargeable via USB. The GoTalk Select offers four programmable message buttons on each of three levels for a total of 12 wearable quick messages!

Features:

- Records and stores 12 messages in three levels, on four buttons
- Attaches to lanyard or clip as a wearable communication device
- Fits in a pocket for easy transport
- Provides high-quality speaker
- Rechargeable via USB
- Size: 2.75 cm x 2.75cm
- Adjustable volume
- 2-year warranty

Go Talk 9+ Lite Touch

R5,645.00 (incl.VAT)

**RT275-02-008
RT275-02-009**

GoTalks provide fantastic sound with volume control, easy sequential recording, level erase, built-in overlay storage, record lock, level lock and 2-year warranty. In addition to these classic GoTalk features, the Lite Touch device is five times easier to activate! Use this GoTalk to initiate conversations, support communication in daily activities, talk on the telephone, tell personal anecdotes, practice speaking and articulation, give instructions, participate in small group instruction, and more! Students can use this device or another GoTalk to show the teacher what they know, making it a great individual or classroom tool for communication about any subject. In a hospital setting, use a GoTalk to greet visitors, make comments or requests, ask questions, or discuss emotions.

Features:

- 9 message keys
- 5 recording levels
- 45 message capacity
- 9 minutes of recording time
- 2-year warranty
- Size: 9"x 12"x 1.2"

Plus Features:

- 5x greater touch sensitivity
- 3 core messages
- Great sound quality
- Built-in overlay storage
- Faster record and erase
- Convenient instructions on the back
- Detailed User's Guide

Go Talk 20+ Lite Touch

R6,130.00 (incl.VAT)

RT275-02-003

The GoTalk 20+ Lite Touch provides wonderful sound with volume control, easy sequential recording, quick level erase, built-in overlay storage, record lock, level lock, and a two-year warranty. In addition to these features, the Lite Touch device is five times easier to activate than the original GoTalk 20+!

Features:

- Records and stores up to 100 messages across 5 levels
- 20 programmable buttons allow the user to personalize each level with pictures and vocal recordings
- Includes 5 additional core buttons for frequently used words or phrases across levels
- Offers sequential recording for quick setup and re-recording
- 15 minutes of recording time

Communication Devices

Talking Brix V2 (Set of 3)

R5,265.00 (incl.VAT)

RT275-02-001

The NEW TalkingBrix 2 is a set of three single-message communication devices that can be used individually or attached to create a multi-message communication device. Each TalkingBrix can play a message up to 10-seconds long. The 1.8-in /4.6-cm coloured top on each TalkingBrix is easy to activate with only 2-oz/57-g of force. Each TalkingBrix includes a clear snap-cap so you can attach a picture symbol of your choice.

Features:

- Amplified dual speaker sound output
- Record lock prevents a user from accidentally erasing a message
- Improved battery life
- Size: Less than 2.5" or 6.35cm
- Weight: 4.8-oz / 136g
- 2-year warranty

SmoothTalker with Levels

R2,720.00 (incl.VAT)

RT275-02-004.3

The advanced memory management features in the new SmoothTalker with levels allocates memory as it's used, meaning that you can have a different amount of recording time on each level to meet your exact needs. The only limit is a massive 8 minutes, spread across the five levels.

Features:

- Five levels.
- A huge 8 minutes of recording and playback time.
- Built in rechargeable lithium battery-charge from a USB socket. Can be used while charging.
- Eight playback modes.
- Digital amplifier and twin speakers for superior sound quality.
- Input socket for external switch (or use SimplyWorks wireless switch)
- Output socket for external toy/ appliance control (or use SimplyWorks toy/ appliance controllers).
- Built-in symbol holder
- Large (125mm) low profile switch activation area.

Big Button with steps + levels

R1,845.00 (incl.VAT)

RT275-02-007

The Big Button with Steps and Levels also has two modes: steps and levels. In the steps mode, you can record three activities, each with up to ten 6-second steps. After recording, you select an activity and the user plays the steps in sequence, one by one. An LCD indicates the activity and step number. The level mode gives you an additional ten distinct messages. The message stays the same until you change the level.

- Ten levels—nine levels with 6 seconds recording time plus one level with 14 seconds
- Program three activities with up to ten steps each (6 seconds recording time per step)
- LCD readout
- 40 message capacity

Features:

- Has a transparent cap for inserting image overlays
- Low profile for minimal movement when activating
- Options available: Big Button or Big Button Steps and Levels
- Big Button has tap-to-talk mode for three messages total
- Big Button with Steps and Levels records up to three activities, each with 10, six-second steps and records up to 10 distinct message levels which stay consistent across activities
- Sleek design
- Great sound
- Volume control
- Easy-touch activation
- Low profiles
- Easy to slide in overlays
- Overlay storage in back
- Nonskid rubber feet
- Threaded insert for mounting
- Key hole for wall mounting
- 2 AAA batteries, included
- Size: 5 3/4 inches across
- Holds 3 images

Communication Devices

Step Pad

R879.00 (incl.VAT)

RT275-02-013

The StepPad is a cognitive support tool designed to assist individuals who have difficulty completing multi-step tasks independently. It allows users to record up to 29 unique steps for each of 8 different activities, providing sequential audio prompts to guide the user through each task.

Here's how the StepPad works: Press any of the four activity buttons to activate a step-by-step sequence. You can label these buttons with a slide-in overlay plus an auditory cue. Users hear the steps one at a time by pressing the Next button. Press Play if you want to repeat a step or press the back button to review previous steps.

Features:

- Ideal for recording directions to play in sequence, one step at a time
- Provides a short-term teaching tool or a long-term adaptive aid
- Records up to four activities with two levels and 30 steps each
- Built-in lanyard loops and a belt loop slot for easy transport
- Offers an ergonomic and dual-speaker design
- Small enough to fit in hands or purse

Uses:

- Vocational tasks
- Household chores
- Personal routines
- Vocational tasks
- Household chores
- Personal routines

SuperTalker FT

R10,500.00 (incl. VAT)

RT275-02-015

The NEW SuperTalker FT includes four interchangeable keyguards that can be used to create a communication device with one, two, four, or eight message locations. SuperTalker FT contains a Feather Touch activation surface that is sensitive enough to detect the lightest of touches. Eight recording levels give you the ability to record up to 64 unique messages.

SuperTalker FT is switch accessible. Connect one switch to each message location for direct message playback or use one switch to step through each message location sequentially. Use the two toy/appliance outputs to turn your SuperTalker FT into a switch and add communication to your activity.

Improvements to the new SuperTalker FT include:

- Feather Touch activation surface
- Improved activation surface performance when message grids are changed
- Updated modern look
- Recording time: 16 minutes
- 2 year warranty

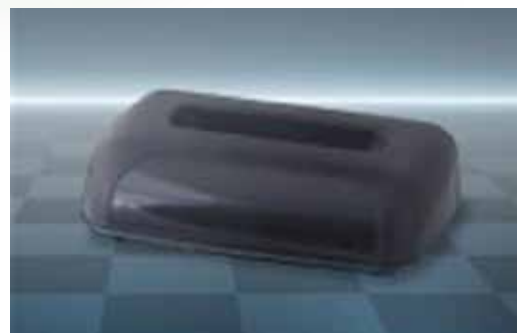

Audioropa Single Charger LPU-2 PR

R2,080.00 (incl.VAT)

RT275-02-022.4

The LPU-2 PR charger (Item no. A-4971-0) is designed for use with Humantechnik's LPU-2 PR personal amplifier system, which is commonly used in assistive listening applications. This charger is specifically tailored to recharge the device's internal batteries, ensuring optimal performance and longevity.

Smoothie 75 Switch

R550.00 (incl.VAT)

**RT275-03-001.6
RT275-03-014**

Smoothie 75 is a 75mm (3") diameter wired switch, terminating in an industry-standard 3.5mm jack. The switch has an extremely low profile and angled towards the user, meaning that the operating surface is only 10mm above the desk at its lowest. The switch does not have a flanged base, allowing unrestricted access to the operating surface. Users who are unable to rest their hand on the switch without operating it may instead rest their hand on the desk in front of the unit and simply 'roll' it towards the switch when required. The activation force required for the Smoothie 75 switch is 120 grams

Features:

- Operates over the whole switch area.
- Extremely low profile and operating force.
- Tactile feedback.
- Available in four colours (red, yellow, blue, green).
- Switch top cannot be removed by user – prevents distraction (coloured tops can be changed only with tools).

Used for:

- Computer Access
- Tablet Access – iDevices
- Tablet Access – Android
- Communication
- Toys & Mains Control
- Switch Activities
- Environmental Control
- Ageing Resources

Also Available in the colours below

Smoothie 125 Switch

R550.00 (incl.VAT)

**RT275-03-003.3
RT275-03-014.2**

Smoothie 125 is a 125mm (5") diameter wired switch, terminating in an industry-standard 3.5mm jack. The switch has an extremely low profile and angled towards the user, meaning that the operating surface is only 10mm above the desk at its lowest. The switch does not have a flanged base, allowing unrestricted access to the operating surface. Users who are unable to rest their hand on the switch without operating it may instead rest their hand on the desk in front of the unit and simply 'roll' it towards the switch when required. The activation force of approximately 220 grams at the center and 150 grams at the edge

Features:

- Operates over the whole switch area.
- Extremely low profile and operating force.
- Tactile feedback.
- Available in four colours (red, yellow, blue, green).
- Switch top cannot be removed by user – prevents distraction (coloured tops can be changed only with tools).

Also Available in the colours below

Used for:

- Computer Access
- Tablet Access – iDevices
- Tablet Access – Android
- Communication
- Toys & Mains Control
- Switch Activities
- Environmental Control
- Ageing Resources

Specs Switch

R1,400.00 (incl.VAT)

RT275-03-001

When using switches in an augmentative and alternative communication (AAC) setting, they are commonly used as external inputs for speech generating devices (SGDs), computer and iPad switch interfaces, and switch adapted toys. With a 13/8-in/3.5-cm activation surface, an activation force of approximately 3.5 ounces (100 grams) to operate, the Specs switch is small enough to be worn, but is most often used as a mounted switch. The Specs switch includes a space saving flush base and a strap base for mounting around items. 24-inch strap included.

Technical Specifications:

- Switch Type: Mechanical
- Connection Type: Wired
- Cord Length: 6 ft (183 cm)
- Activation Type: Pressure
- Activation Surface: 1.375-in/3.5-cm diameter
- Activating Force: 3.5-oz/100-g
- Travel Before Activation: 0.025-in/0.0635-cm
- Feedback: Auditory click, Tactile
- Plug Size: 1/8-in/3.5-mm mono
- Mounting Plate: Universal Mounting Plate

Features:

- Responsive Activation: Sensitive across the entire surface for easy use.
- Audible Feedback: Provides a click sound to confirm activation.
- Durable Construction: Made from high-impact ABS for long-lasting performance.
- Multiple Mounting Options: Includes three versatile bases to accommodate various mounting needs. For flexible positioning use the Buddy Button Mounting Plate and one of our Switch Mounting Solutions.

Also Available in the colours below

Big Red Switch

R1,400.00 (incl.VAT)

RT275-03-003.2

The Big Red Switch is an assistive technology device designed to aid individuals with visual impairments or physical disabilities requiring a larger activation surface.

The Big Red switch provides a large 5-in/12.7-cm activation surface that activates with 5.5-oz/156-g of force. When activated, the user experiences tactile and auditory feedback. Included are red, blue, yellow, and green interchangeable switch tops and a snap on clear symbol holder.3. Quickly and easily create printable picture symbol overlays for your device with the free AbleNet Symbol Overlay Maker app.

- Extra-Large Activation Surface (125mm): The Big Red switch is the best choice for individuals with visual impairments and/or physical disabilities that require a larger target area.
- Interchangeable Colour Tops: Comes with red, yellow, green, and blue switch tops, allowing for visual customisation or easy identification in multi-switch setups.
- Sensory Feedback: Delivers both tactile feedback and an auditory click sound upon activation, supporting users with sensory needs.
- Compatible with a Range of Devices: Works with AAC devices, screen-scanning software, environmental controls, and more, allowing users to control their surroundings make selections, or participate in learning activities.

GlassOuse Pillow Switch

R1,080.00 (incl.VAT)

RT275-03-005.2

A durable switch option covered with soft cushion for users with less physical control. GS07 Pillow Switch provides 8.63cm activation surface, making the item comfortable enough for both user groups needing either a large or smaller target area to interact. Operated by 150g activation force, GS07 Pillow Switch has an auditory click and tactile feedback.

- Pillow Switch comes with a 185cm long cable and a 3.5mm mono jack plug-in.
- Can be used with touch fastener straps and its attached safety pin to mount on fabric surfaces and wheelchair pads.

Used for:

When pressed, it sends a signal to the connected device (like a GlassOuse head mouse or communication device) to perform actions like:

- Clicking (left/right)
- Selecting items
- Navigating menus
- Communicating via AAC (Augmentative and Alternative Communication) systems
- Acts as an input method for users who control devices through adaptive switching, allowing them to interact hands-free.

The pillow switch is ideal for:

- Quadriplegia
- ALS (Amyotrophic Lateral Sclerosis)
- Cerebral Palsy
- Muscular Dystrophy

Key Benefits:

- Soft and comfortable to press—suitable for sensitive users
- Versatile mounting options (bed, wheelchair, etc.)

Microlight Switch

R1,915.00 (incl.VAT)

RT275-03-006

The Micro Light Switch is an ultra-sensitive assistive device designed for individuals with minimal strength or limited movement. It requires just 0.4 ounces (approximately 11.3 grams) of force to activate, making it ideal for users who can exert only a feather-light touch.

Features:

- Is a mechanical type of switch.
- Has a wired connection type.
- Has a lite pressure type of activation force.
- Has auditory and tactile feedback.
- The Micro Lite Switch is suitable for users with special needs namely visual impairments and physical disabilities.
- Suitable for users with special needs namely visual impairments and physical disabilities.

Technical Specifications:

- Activation surface: (in/cm) 1.75 x 0.5 and 4.5 x 1.3
- Activating force (oz/g): 0.4 / 10
- Travel before activation (in/cm0): 0.25 / 0.7
- Feedback auditory click tactile: Auditory click tactile
- Plug Size (in/mm) 1/8 / 3.5 mono

Assistive Accessories

Little Candy Corn Proximity Switch

R5,310.00 (incl.VAT)

RT275-03-007

The Candy Corn Proximity Sensor Switch is a popular adaptive switch designed for individuals with disabilities or special needs. It operates using proximity sensing technology, allowing the user to activate it without needing to press it physically. This makes it ideal for individuals with limited motor skills or those who cannot apply pressure to standard switches. The Little Candy Corn switch activates when any part of the body comes within approximately 10 millimeters of its surface, making it ideal for individuals who cannot exert force to operate

Features:

- Small and compact size
- Activate without touching
- Orange lights activate for visual cues
- The Candy Corn proximity sensor switch makes a beeping sound for auditory cues
- Magnetic Mounting
- 3.5 millimeter switch jack
- Includes CR2032 battery

Big Candy Corn Proximity Switch 2

R5,310.00 (incl.VAT)

RT275-03-008

The Candy Corn Proximity Sensor Switch is a popular adaptive switch designed for individuals with disabilities or special needs. It operates using proximity sensing technology, allowing the user to activate it without needing to press it physically. This makes it ideal for individuals with limited motor skills or those who cannot apply pressure to standard switches.

The BIG Candy Corn 2 utilizes a highly sensitive proximity sensor, allowing activation when a body part comes within approximately 1 inch (2.5 cm) of its surface, eliminating the need for any physical force.

The NEW BIG Candy Corn proximity sensor switch is just as great as the LITTLE Candy Corn proximity sensor switch, but almost twice the size and with new features. BIG Candy Corn is highly sensitive and does not require a physical touch from the user to activate. Simply wave a hand or move your body within 2.5-cm of BIG Candy Corn and it activates.

Features:

- Larger activation area that is approximately 9-cm wide
- Easier to activate – activates when the user is within 2.5-cm of the switch top or with a light touch
- Auditory beep and visual feedback can be turned on and off
- Internal magnet for mounting, or use the two threaded inserts to mount with the AbleNet Universal Mounting Plate

GlassOuse Bite Switch

R1,270.00 (incl.VAT)

RT275-03-016

It is a well-known design for the first version of GlassOuse, Bite Switch now comes with a mono 3.5mm jack connector and it can be paired perfectly with GlassOuse or any kind of adapted device offering 3.5mm jack input. With its flexible cable, Bite Switch can be adjusted according to your need and it is super lightweight.

Covered with a non-carcinogenic material, silicone cover protects the switch module and it is easy to change and clean. Bite Switch's renowned design is upgraded with solid and durable materials while it was tested 100 000 times under 3 tons of pressure to meet the needs of heavy-daily-use.

The GlassOuse Bite Switch requires an activation force of approximately 300 grams (about 10.5 ounces) to register a click. This force is suitable for users with moderate bite strength and provides tactile feedback upon activation.

Assistive Accessories

Simple Switch Interface Box

R693.00 (incl.VAT)

RT275-03-026

The Simple Switch Interface is a simple, convenient and cost-effective way to connect up to two switches to your computer to access most assistive technology software. To provide switch access to most AT software, Space and Enter is often all that you will need. However, if you are using the device as a method of providing mouse switches, it may be set to Left and Right click. Alternatively, access to Clicker from Crick may be provided by selecting F7/F8 and similarly, access to The Grid from Smartbox can be gained by using Gamepad 1 and 2.

Whatever the appropriate switch functions, Simple Switch Interface retains the settings even when powered down so it will always reset the way you want it.

As with all Pretorian products, no drivers are required, making it ideal for installation on computers which are under maintenance contracts.

Features:

- Supports Space/Enter, Left Click/ Right Click, F7/F8 (for Clicker) and Gamepad 1 and 2 (for The Grid)
- Retains mode setting even when powered down
- Does not require drivers
- Two 3.5mm sockets to connect your own choice of switches

Used for:

- Computer Access
- Tablet Access – Android
- Switch Activities
- Environmental Control

SimplyWorks Send and Receive Bundle

R1,930.00 (incl.VAT)

RT275-03-027

The SimplyWorks Receive is a USB receiver and interface which forms the hub of the SimplyWorks system when used for computer access and will support up to six SimplyWorks transmitters of any kind.

Used for:

- Computer Access
- Switch Activities
- Wireless Connectivity

The SimplyWorks SEND is a single channel wireless transmitter which acts as an interface between any wired switch and any SimplyWorks receiver.

SimplyWorks SEND is very similar to SimplyWorks Switches, just not built into a switch! Instead, you can use it to make any switch part of a SimplyWorks configuration, allowing foot switches, pillow switches, sip/puff and other, less common switches to become wireless. Simply plug the switch into the 3.5mm socket on Send, pair it to the SimplyWorks receiver you'd like it to work with and it's now wireless.

Used for:

- Computer Access
- Tablet Access – Android
- Switch Activities
- Environmental Control
- Wireless Connectivity

Assistive Accessories

SimplyWorks Receive

R822.00 (incl.VAT)

RT275-03-028.2

The SimplyWorks Receive is a USB receiver and interface which forms the hub of the SimplyWorks system when used for computer access and will support up to six SimplyWorks transmitters of any kind.

It simultaneously supports up to six SimplyWorks transmitters of any kind without needing to load any drivers onto the host computer.

SimplyWorks Receive also includes CAPs and DRAG lock LEDs for easy identification when using mouse and keyboard functions.

SimplyWorks allows you the freedom to create wireless, single or multi-user learning environments, reducing set up time and allowing you to concentrate on the learning tasks themselves.

Features:

- State of the art multi-channel wireless receiver with a range in excess of 10m, making it ideal for classroom environments.
- Supports up to six transmitters simultaneously.
- No restriction on the mix of transmitters.
- Caps Lock and Drag Lock LEDs.
- USB Connectivity.
- Does not require driver software – ideal for contract managed computer systems.
- PC and Mac compatibility.
- Compact design.

SimplyWorks Send 6 and Receive (Wireless)

R2,500.00 (incl.VAT)

**RT275-03-023
RT275-03-027.2**

RECEIVE:2 supports the SimplyWorks TRACKBALL, JOYSTICK, SWITCH 125, SWITCH 75, SEND, SEND-6, KEYBOARD, and SMOOTH TALKER functions all via a single USB connection to the host computer and without dedicated driver software.

SimplyWorks allows you the freedom to create wire-free, single or multi-user learning environments, reducing set up time and allowing you to concentrate on the learning tasks themselves.

RECEIVE:2 is compatible with all PC and Mac platforms that are fitted with a USB socket and makes use of advanced features that are not available on the PS/2 style connectors; so the unit cannot be used in the PS/2 socket of your computer even via an adaptor plug.

Features:

- State of the art multi-channel wireless receiver with a range in excess of 10m
- Supports up to six transmitters simultaneously
- No restriction on the mix of transmitters
- Caps Lock and Drag Lock LEDs
- USB Connectivity
- No additional drivers required
- PC and Mac compatibility
- Compact design

Hitch 2 Switch Interface

R2,550.00 (incl.VAT)

RT275-03-017

Hitch 2 is a plug-and-play USB computer switch interface with inputs for up to five switches or one joystick with a 9-pin D plug. When used with switch accessible software, users are able to control their computer, actively learn, and have fun. For macOS Sierra, El Capitan, Yosemite, or Mavericks users, turn on Switch Control for full computer access with one or multiple switches. In addition, Hitch 2 includes a mouse control mode that enables a user to control the on-screen mouse cursor with a joystick or multiple switches.

New to Hitch 2

- Simplified user interface that includes core keystrokes commonly used by software for switch access
- Ability to program one to four keystrokes of your choice
- Integrated USB connection
- Improved 9-pin D connection for joysticks

Ultimate Switchbox

R2,238.00 (incl.VAT)

**RT275-03-022.2
RT275-03-026.3**

Ultimate Switchbox is a highly flexible USB switch interface for use with up to 6 assistive switches. The switch functions are set by selecting one of four levels. Each socket on every level is completely programmable to any one of over a hundred settings, which encompasses all keyboard keystrokes as well as a suite of mouse and gamepad functions.

A seventh socket is dedicated to changing level so the user can navigate between Levels without requiring assistance. Alternatively, this may be achieved using a button on the fascia of Ultimate Switchbox.

The unit ships with carefully selected default settings assigned to each of the sockets on every level, meaning that in many cases, no configuration is required. If the settings need to be changed, simply go into Learn Mode and set each one in turn according to your exact requirements. Once changed, they are saved in internal memory and automatically recalled, even when taking the unit from device to device. As with all Pretorian products, Ultimate Switchbox requires no drivers- simply plug and play!

Four macros can be configured to give sequences of up to four keystrokes and these can be assigned to any socket on any level.

Any keyboard keystroke can be configured to have one or more 'modifier keys assigned to it such as Shift, Control or Alt. Most functions can optionally be made to be latching. This level of versatility can be especially useful when programming a switch box to access software that is not primarily designed for disabled access (i.e. not switch adapted).

Left click, right click, double click and drag mouse functions can also be configured together with up, down, left and right cursor movement at one of three cursor speeds. Four gamepad button settings are also available.

Features:

- Designed to allow ANY keystroke to be configured.
- Modifier keys can be added to any keystroke.
- Includes keyboard, mouse and gamepad settings.
- Carefully selected default settings mean that in many cases no configuration is required.
- Simple or Advanced configuration.
- Four Levels, selectable using a dedicated switch or integral button.
- Six 3.5mm jack socket inputs allow any style of switch to be used.
- Seventh 3.5mm socket to allow Level to be selected by user.
- Easy 'plug and play' installation, does not require driver software.
- Computer Access
- Tablet/ Phone Access
- Switch Activities
- Accessing non-AT software.

Assistive Accessories

MultiSwitch 2

R2,462.00 (incl.VAT)

RT275-03-022.3

The inclusive MultiSwitch 2 is an intelligent switch interface that automatically detects the program you are loading and sets up the switches for you.

Features:

- Use with up to six switches.
- Create your own switch profiles with mouse clicks, key presses or application actions (such as print or save) to access non-switch software.
- Can also be used to enable switch access to mouse movement, with four built-in cursor speed settings.
- Supplied with programmable software.

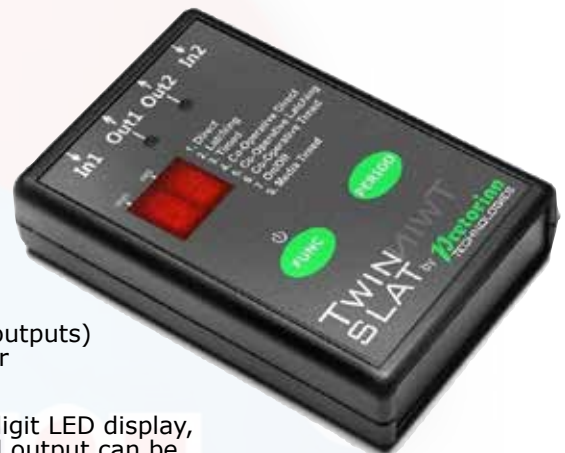

Twin SLAT

R1,624.00 (incl.VAT)

RT275-03-024

Twin SLAT is a two-channel Switch Latch and Timer for low-voltage / battery-operated toys and appliances with multiple modes and programmable timer settings.

- Direct (outputs activate for as long as the switch is pressed)
- Latched (press the switch once for on and again for off)
- Timed (selectable time period from 5 seconds to 1 hour)
- Co-Operative Direct (turns on both outputs for as long as both switches are pressed)
- Co-Operative Latched (toggles both outputs whenever both switches are pressed)
- Co-Operative Timed (turns on both outputs for a period between 5 seconds and 1 hour when both switches are pressed)
- On/Off (Switch 1 turns on both outputs; Switch 2 turns off both outputs)
- Media Timed (pulses the output at the beginning and end of timer period).

When a timed output is selected, the time period is set using a two-digit LED display, in either seconds or minutes, between 5 seconds and 1 hour. A timed output can be cancelled early by pressing one button.

Co-Operative modes require two users to work together to turn on a toy or appliance. On/Off mode may either be used co-operatively (one user takes charge of 'on' and the other 'off') or can be used to great effect in separating the on and off tasks for a single user with cognitive impairment.

Media Timed mode is ideal for playing music for a limited period on media players with play/pause function). Some toys also work in a similar way and would benefit from this mode setting.

Features:

- Two independent channels.
- Two 3.5mm jack plug outputs via supplied leads.
- Choice of 8 operating modes
- Selectable time periods in timed modes.
- Automatic power saving mode - no on/off switch required (manual power-down option included).

Uses:

- Toy and Appliance control.
- Switch Activities

Battery Adapter - AA/AAA

Battery Adapter - C/D

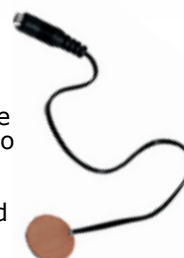

AA Batteries

A Battery Device Adapter for AA or AAA batteries is a handy accessory that allows you to power devices that typically use a different battery size.

RT275-03-020
R153.00 (incl.VAT)

Convert any battery-operated toy or appliance into a switch-activated device. Place the copper disc between the battery, and the battery contact in the toy. Plug a switch into the Battery Device Adapter. This allows the switch to be used as the on/off control for the toy.

RT275-03-021
R153.00 (incl.VAT)

Rechargeable AA battery NiMH, 1500mAh, 500 charge cycles, single unit

RT275-03-067
R540.00 (incl.VAT)

Assistive Accessories

SimplyWorks Control

R1,258.00 (incl.VAT)

**RT275-03-032
RT275-03-033**

SimplyWorks Control is a single channel wireless toy controller for battery operated toys and appliances. Light weight and small enough to be fastened to a toy, the unit has an operating range of 10 metres and features the following modes:

- Direct (toy activates for as long as the switch is pressed)
- Latched (press the switch once for on and again for off)
- Timed Seconds
- Timed Minutes

When a timed output is selected, the time period is set using a string of LEDs. The unit requires 2 x AAA batteries and will operate for many months without the need to replace them. As usual with Pretorian products, there's no on/off switch - the unit powers down automatically after a period of inactivity. Just press any button to wake it up again.

Features:

- Works with any SimplyWorks transmitter to control battery operated toys or other output devices.
- Allows up to six wireless switches to be paired to allow co-operative use.
- Single 3.5mm jack plug output via supplied lead.
- Small enough to strap to a battery operated toy.
- 10 Metre operating range.
- Automatic power saving mode - no on/off switch.
- Choice of Direct, Latched, Timed (seconds) and Timed (minutes) modes of operation.

Uses:

- Communication
- Toys & Mains Control
- Switch Activities
- Environmental Control
- Wireless Connectivity
- Selectable time periods in timed modes.
- Long battery life.

SimplyWorks Control Pro

R2,080.00 (incl.VAT)

RT275-03-031

The SimplyWorks Control Pro is a two channel controller for battery operated toys and small appliances.

SimplyWorks Control Pro is a controller for one or two battery operated toys and other low-voltage appliances. The unit has an operating range of 10 metres (when used with wireless switches) and features the following modes:

- Direct (toy activates for as long as the switch is pressed)
- Latched (press the switch once for on and again for off)
- Timed Minutes
- Co-Operative
- On/Off
- Timed Seconds

In Co-Operative and On/Off modes, both outputs are activated at the same time, allowing you to control two toys at the same time.

When a timed output is selected, the time period is set using a string of LEDs. A timed output can be cancelled early by pressing either the Pair 1 or Pair 2 button.

Co-Operative mode requires two users to work together to turn on a toy. On/Off mode may either be used co-operatively (one user takes charge of 'on' and the other 'off') or can be used to great effect in separating the on and off tasks for a single user with cognitive impairment.

The unit requires 2 x AA batteries and will operate for many months without the need to replace them. As usual with Pretorian products, there's no on/off switch - the unit powers down automatically after a period of inactivity. Just press any button to wake it up again.

Features:

- Works with any SimplyWorks transmitter to control battery operated toys or other output devices.
- Two 3.5mm jack plug outputs via supplied leads.
- Allows up to three wireless and one wired switch to be paired with each channel
- Choice of Direct, Latched, Timed (seconds), Timed (minutes), and two Co-Operative modes of operation.
- Selectable time periods in timed modes.
- Operates with both wired and wireless switches.
- 10 Metre operating range.
- Automatic power saving mode - no on/off switch.
- Long battery life.
- Two independent channels

Assistive Accessories

Toy Control Box

R2,650.00 (incl.VAT)

RT275-03-035

An innovative Toy Control Box which enables control of up to four toys or switch adapted devices easily from your computer using the software provided.

Features:

- Choose from 1, 2, 3 or 4 onscreen buttons.
- Display the onscreen buttons in 1 or 2 lines.
- Customize the appearance of each onscreen button.
- Use to teach scanning with one or two switches.
- Configure the scanning time.
- Choose from direct, timed or On/Off operating mode.
- Execute the action from other applications.
- Play a sound when the device is activated.

Suitable for:

- Physical disabilities: spinal cord injuries, multiple sclerosis, ALS, neuromuscular disorders
- Autism spectrum disorder
- Cerebral palsy
- Learning disabilities

SimplyWorks Energise

R3,237.00 (incl.VAT)

RT275-03-036.2

The SimplyWorks Energise is a feature rich mains appliance controller allowing switch users to control up to two electrical appliances with wired or wireless switches, or a combination of both. The unit has an operating range of 10 metres (when used with wireless switches) and features the following modes:

- Direct (sockets activate for as long as the switch is pressed)
- Latched (press the switch once for on and again for off)
- Timed Seconds
- Timed Minutes
- Co-Operative
- On/Off

Co-Operative mode requires two users to work together to turn on one or more appliances. On/Off mode may either be used co-operatively (one user takes charge of 'on' and the other 'off') or can be used to great effect in separating the on and off tasks for a single user with cognitive impairment.

Features:

- Six Selectable control modes. Four modes provide independent switch operation; two modes provide co-operative switch operation.
- Independent switch operation in Direct, Latched, Timed Minutes and Timed Seconds modes.
- Two 230V, 50Hz sockets.
- Two 3.5mm switch input sockets.

Uses:

- Switch Activities
- Environmental Control
- Ageing Resources
- Wireless Connectivity

iClick

R3,574.00 (incl.VAT)

RT275-03-036.3

The innovative iClick allows you to turn electrical appliances on and off wirelessly using a free of charge app on your iPad using the iClick app, available from the App Store. Simply plug your favourite appliance(s) into iClick and control them from your iPad in the following innovative ways:

- Direct – Appliance/toy is powered for as long as the user touches the switch on the iPad screen- a great way to teach cause and effect.
- Latching– Touch once for on and again for off.
- Timed – One touch turns the device on for a period determined within the app, from as little as 1 second up to 250 minutes.
- Cooperation – Requires two users to work together for the device to turn on and off- great for teaching social skills and cooperative play.
- On/Off – One switch turns on the device and the other turns it off.

Features:

- Two independently controlled mains sockets. UK, EU, AUS/NZ and US socket versions available.
- Ultra-safe wireless control of electrical appliances.
- Seven control modes selected from the iClick app. Four modes provide independent switch operation; three give cooperative control.
- iClick app available free of charge from App Store.
- Fully supports SimplyWorks wireless switches
- Two 3.5mm switch input sockets for all types of wired switch.
- Interference free operation at up to 20 metres (60') distance

Assistive Accessories

L3D MC 2QS Switch Mounting Kit

R5,500.00 (incl.VAT)

RT275-03-037

Universal mount kit for switches. Includes versatile small tube clamp, two L3D10 (Ø10 mm – 3/8") tubes, QuickShift joints and the three most popular switch adapter plates.

L3D GA Universal #1

R1,340.00 (incl.VAT)

RT275-03-040

Device adapter with the Spigot Link System (SLS) for mounting the James, AMDi PartnerPlus, PartnerPlus4, WobbleSwitch or little Step-by-Step on Rehadapt's Light 3D system.

Device Mounting Plate TD I-Series and TD Pilot

R1,450.00 (incl.VAT)

RT275-03-041.2

These mount plates let you easily attach your device to stands or wheelchair mount systems. The device is not included, and the device owner must have a Rehadapt mounting system to use this product.

Device Mounting Plate TD I-110 (with handle)

R2,150.00 (incl.VAT)

RT275-03-041.3

These mount plates let you easily attach your device to stands or wheelchair mount systems. The device is not included, and the device owner must have a Rehadapt mounting system to use this product.

Assistive Accessories

Magic Arm with Super Clamp

R4,895.00 (incl.VAT)

RT275-03-043.3

MagicArm (MA) including the SuperClamp – a versatile clamp for angular or round elements sized 13-50 mm (0.5-2"). The articulated arm features balljoints and a locking knurled knob.

Inclusive Mounting Solution - Triple Tube

R11,200.00 (incl.VAT)

RT275-03-053

A versatile and sturdy mounting arm and super clamp that can be customised to meet individual needs and environments. Mount your favourite switch or small communication device on a table or wheelchair for easy access and quick release.

The three options for this pre-configured solution will mount either a Buddy, Big Buddy, Specs Switch or LITTLE Candy Corn Switch, a Jelly Bean Switch or a Large Smoothie Switch, or a Big Red Switch or a BIGmack or a Smooth Talker with Levels.

Does not include switch

Gooseneck Switch Mounting + Mounting Plate

R3,300.00 (incl.VAT)

RT275-03-054.2

The Gooseneck option enables you to mount switches quickly and easily.

Features:

- Very heavy duty and stable gooseneck switch mounting. Includes Super Clamp.
- Requires a mounting plate.
- Switch not included.
- Extends to 51cm (20 inches).

Does not include switch

Magic Arm With Super Clamp and Universal Tablet Mounting Plate

R8,900.00 (incl.VAT)

**RT275-03-059
RT275-03-060.2**

MagicArm (MA) including the SuperClamp – a versatile clamp for angular or round elements sized 13-50 mm (0.5-2"). The articulated arm features ball joints and a locking knurled knob.

Highly adjustable tablet holder for mounting any tablet from between 7" and 13" to a wheelchair with Rehadapt's Universal Device Socket (UDS). The tablet mount works with Apple iPad and Samsung Galaxy tablets, with and without protective cases. Adjustable with knobs and with an 2.5 mm Allen wrench you can easily mount your iPad or any other tablet. Compatible with the EyeGaze Bracket (#16.1193).

Assistive Accessories

Polly Panda Switch Adapted Toy

R1,263.00 (incl.VAT)

RT275-03-030

Cute Polly Panda walks forward and flips.

Features:

- Connect and press any 3.5mm switch (not included) to activate.
- 2 x AA batteries included.
- Please note: requires adult supervision.

Percy Pig Switch Adapted Toy

R1,263.00 (incl.VAT)

RT275-03-030.2

Watch Percy Pig walk along and wiggle his nose and tail to a lovable grunting sound.

Features:

- Accepts 3.5mm switch (not included).
- 2 x AA batteries included.
- Please note: requires adult supervision.

Elvis Elephant Switch Adapted Toy

R1,263.00 (incl.VAT)

RT275-03-030.3

Elvis Elephant walks, trumpets and moves his trunk.

Features:

- Connect and press any 3.5mm switch (not included) to activate.
- 2 x AA batteries included.
- Please note: requires adult supervision.

Dotty Dalmatian Switch Adapted Toy

R1,263.00 (incl.VAT)

RT275-03-030.4

Dotty Dalmatian walks forward, sits down, barks and performs a backflip.

Features:

- Accepts any 3.5mm switch (not included).
- 2 x AA batteries included.
- Please note: requires adult supervision.

Pip The Penguin Switch Adapted Toy

R1,263.00 (incl.VAT)

RT275-03-030.5

Pip the Penguin enthusiastically waddles around, merrily flapping his wings and squeaking.

Features:

- Accepts any 3.5mm switch (not included).
- 2 x AA batteries included.
- Please note: requires adult supervision.

Product Code

GlassOuse Link with Bite Switch

R11,640.00 (incl.VAT)

RT275-04-035.3

The GlassOuse Link empowers people with disabilities to control their mobile phones and tablets hands-free even without moving head. Read & write emails, browse social media, call someone you want to and do all the things and more with GlassOuse Link.

A smart and easy to use device for people with restricted mobility to connect and control devices hands free using assistive switches. Connect with iPhones, iPads, Androids Phones and tablets, MacOS computers and windows (need a independent scanning software separately)

CONNECT YOUR SWITCHES

Choose and connect your switches which are easy for you use like bite switch, puff switch, pillow switch, foot switch etc.

CONNECT GLASSOUSE LINK TO DEVICE

Pair it via Bluetooth to your device (mobile phone or tablet – you can connect up to 3 devices)

PAIR YOUR SWITCHES

Connect your switches as 'external switch' in Switch control and go ahead operating your device.

Devices Simultaneously And Switch Easily Between Them

With GlassOuse Link, you can connect and control up to 3 devices (iPhone, iPad, Android, Mac OS) via Bluetooth and switch between them easily. GlassOuse will automatically save the settings of each device and activate every time you switch to that device.

Choose Switches Which Works For You

You can choose and connect your own set of assistive switches as your body allows you to work. Connect up to 8 switches to GlassOuse Link and perform more functions as needed.

Choose Your G-Wear Accessory To Go With Your GlassOuse Link

Select from 6 different wear accessories to use your GlassOuse PRO. All accessories are systematically designed to be able to accommodate most individuals with different disability, to be able to use GlassOuse Link with comfort.

ICT Based Devices and Solutions

n-Abler Joystick Pro

R4,770.00 (incl.VAT)

RT275-04-032

The n-ABLER Pro Joystick is alternate to a standard mouse device designed specifically for users with motor skill difficulties and limited hand mobility, involuntary muscle spasms and hand or wrist tremors, poor hand-eye-coordination, limited manual dexterity. Using the n-ABLER Pro Joystick could reduce wrist and elbow fatigue resulting in a more controllable fingertip grip.

Features:

- Suitable for users of all age groups with mobility and motor skills difficulties and those who use the computer for long periods.
- The symmetrical design allows users to work with the right or left hand and the integrated palm and hand rest enables work posture to be more relaxed.
- Reduces tension and strain.
- The light touch joystick allows for easy navigation, including T-Bar handles for adjustable joystick grips and soft ball.
- All buttons have white legends on black backgrounds for easy identification of button functions.
- Consist of double click and latching drag lock buttons.
- Switchable left and right click buttons.
- Is switchable to mute and visual warnings indicating selection or change of function.
- Anti-tremor button (with three settings to compensate for the degree of tremor) to improve cursor control. Cursor Speed can also be controlled.
- No additional drivers required for easy plug and play installation.

n-Abler Trackball Pro

R3,930.00 (incl.VAT)

RT275-04-034

The n-ABLER Pro Rollerball is an alternative mouse device designed specifically for users with motor skill difficulties and limited hand mobility, involuntary muscle spasms and hand or hand/wrist tremors, poor hand/eye-coordination and limited manual dexterity. Using the n-ABLER Pro Rollerball could also result in less wrist and elbow fatigue.

Features:

- Suitable for users of all age groups with mobility and motor skills difficulties and those who use the computer for long periods.
- The symmetrical design allows users to work with the right or left hand and the integrated palm and hand rest enables work posture to be more relaxed.
- Reduces tension and strain.
- Is switchable to mute and visual warnings indicating selection or change of function.
- Anti-tremor button (with three settings to compensate for the degree of tremor) to improve cursor control. Cursor Speed can also be controlled.
- Easy 'plug and play' installation (no additional drivers required).
- 63mm, free-running ball for easy cursor control. The pan button allows for easy navigation.
- All buttons have white legends on black backgrounds for easy identification of button functions.
- Consist of double click and latching drag lock buttons.
- Switchable left and right click buttons.

Zygo Head Pointer

R8,130.00 (incl.VAT)

RT275-06-002

These head-worn pointers represent a significant design advancement in providing efficient pointing from a psychologically and cosmetically sound perspective: the chin. Unlike forehead protrusion pointers, using an "out from the chin" device more realistically places the pointer in proximity to the item(s) being accessed. It also eliminates the unsightly barrier imposed by forehead pointers because it doesn't interrupt either the wearer's field of vision or the full view of the wearer's face.

Features:

- Lightweight aluminum and plastic construction.
- Adjustable headband and yoke/pointer assemblies.
- Tip for iPad, Android tablet, and other AAC touch screens.
- Comfortable forehead and back cushions.
- Adjustable chin strap available in two colours (brown/beige).
- Translucent, conforming soft plastic chin cup.
- Made of conductive fabric.
- Fabric will not scratch screens.
- Will work on any conductive touch screens.
- More durable than previous tips.
- Features the latest technology for touch screen rods.

ICT Based Devices and Solutions

Monster 2 Keyboard Cover (Silicon)

R1,005.00 (incl.VAT)

RT275-04-022.3

Protect your Monster 2 keyboard with this durable and easy-to-clean cover. Designed to fit precisely, it shields against spills, dust, and wear, keeping your keyboard looking and functioning like new. Keep your typing experience comfortable and hygienic with this contoured keyboard cover. They are made from a very strong durable polyurethane material protecting your keyboard from oil, dirt, dust and spills. With this membrane over the keyboard you can easily disinfect the keyboard with a disinfectant spray or by using wipes to prevent the passing of germs and bacteria.

Keyboard not included

Features:

- Completely encases the top and sides of the keyboard, offering waterproof and dust protection from above
- Durable polyurethane transparent flexible keyboard cover, latex and silicone Free
- Protect your keyboard from oil, dirt, dust and liquid
- Molded around every key and fully bespoke to each keyboard model
- Over 100,000 models available, please contact us if your model is not listed
- Available on request with antimicrobial protection
- Strong adhesive is around the edge of the membrane, peel the backing and affix to the keyboard
- Note. Photo shows the cover on an Accuratus Monster 2 keyboard, keyboard NOT included

Clevy Keyboard Plastic Keyguard

R1,995.00 (incl.VAT)

RT275-04-024

For people with temporary or permanent motor skill difficulties, the Clevy Keyguard can prove to be a valuable addition to any of the different type of Clevy Keyboards.

Rest and Guides

The Clevy Keyguard enables users with motor skill difficulties to let their hands rest on the keyboard without accidentally hitting any keys and guides the user's fingers towards the right keys.

Matt Surface

The surface of the Keyguard has been matted to make its appearance calmer to the eyes prevent reflecting light causing any flickering.

One keyguard for all

The Clevy Keyguard fits all current models of the Clevy Keyboard, so you can use the same keyguard for the coloured, contrast and wireless models.

Keys-u-See Keyboard (Yellow)

R930.00 (incl.VAT)

**RT275-04-025.4
RT275-04-027**

The Keys-U-See Large Print Keyboards are high contrast alternatives to standard keyboards and have been designed specifically for those with conditions that cause visual impairment or low vision, such as: Macular Degeneration, Diabetic Retinopathy, Glaucoma, Cataracts and age related vision loss. Clicker Software

R6,464.00 (incl.VAT) (Single)

**RT275-05-005
RT275-05-006**

Help every child achieve writing success	Harness the power of pictures	Boost speaking, listening & reading skills	Assess pupil progress
At the very core of Clicker lies a word processor, meticulously designed to be child-friendly and intuitive. This design ensures that students, even those who may have previously been hesitant, find a welcoming environment to express their ideas and thoughts.	In addition to extensive support for learners with reading and writing difficulties, Clicker opens the door for pupils with a wide range of additional needs, including switch and eye gaze users.	Make curriculum content accessible for all with talking Clicker Books, support emergent readers and EAL pupils with Matching Sets, and use Talk Sets to develop speaking and listening skills.	Clicker's Analytics tool gives you a unique insight into each learner's writing process, helping you make informed decisions about their current support levels and the most effective next steps.
Provide access for all	Check understanding (Win/Mac only)	Support the curriculum with free resources	Organise Ideas
Clicker's 'Picturise' button instantly adds pictures to any Clicker Grid, helping children to find the word they want. Choose from over 4500 Clicker curriculum pictures or use your own.	Cloze activities are a great way to assess pupils' topic knowledge, as well as their ability to use semantic and contextual clues. Create your own Cloze activities in a matter of seconds!	Clicker includes free access to LearningGrids, an ever-growing bank of ready-made classroom resources created by Cricksoft's curriculum team.	Clicker includes a child-friendly mind mapping area to help learners prepare for writing.

Qfrenzy South African Voices

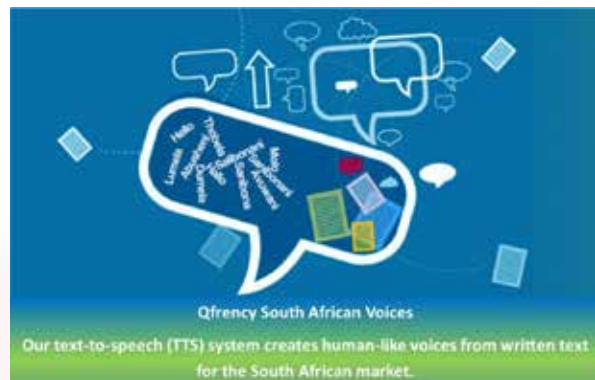

R360.00 (incl. VAT) (Standard)

RT275-05-011

Our text-to-speech (TTS) system creates human-like voices from written text for the South African market. These synthetic voices can say and read anything in South African languages, on a wide range of devices and platforms, for industry, developers and individuals. The technology generates synthetic speech that is as close to human speech as possible, including articulation and accent.

The Voice Computing Research Group within the CSIR studies the way in which speech- and language-related technologies can be created and applied to benefit the people of southern Africa. The uniqueness of South Africa as a multilingual country with eleven official languages, led to years of research and ultimately, the release of commercial grade TTS voices for the official South African languages. Qfrenzy TTS is especially well-suited to presenting dynamic content, enhancing digital literacy and enabling communication.

We supply and support the Windows-compatible Qfrenzy TTS voices.

DocsPlus Software

R6,464.00 (incl.VAT) (Single)

**RT275-05-006.5
RT275-05-046**

DocsPlus is a writing tool for secondary schools. It is designed to help struggling writers overcome barriers to progress and boost confidence.

It includes fantastic tools to help students capture their ideas and refer back to them as they write, including a built-in mind mapping tool and an audio note.

Creating structured, coherent, subject-specific pieces of writing

DocsPlus users benefit from intelligent word prediction, writing frames and curriculum vocabulary banks to help them demonstrate their knowledge and achieve writing success.

Proofing and reviewing work

DocsPlus' speech feedback tool enables learners to listen back to their work and encourages them to find and correct errors for themselves.

Accessing curriculum content

DocsPlus' built-in DocReader will read aloud any PDF or Word document (including exam papers) in a clear, realistic-sounding voice.

KAZ Touch Typing Software

R910.00 (incl.VAT) (Single)

**RT275-05-033
RT275-05-039**

Touch typing, is a fundamental skill that can change lives, school and university experiences. Typing with 2 fingers uses the conscious mind, but when you touch type with all digits, the skill is transferred to the subconscious – leaving the mind free for creative writing and the task at hand.

Through innovation, KAZ aim to empower all individuals – mainstream, neurodivergent, hearing and visually impaired. It's more than just typing, KAZ Touch Typing software boosts productivity, supports literacy skills, encourages independent learning, and builds confidence – all while helping to reduce anxiety. Let this powerful, subconscious skill empower and unlock your full potential.

Product Description

KAZ's accessible touch-typing software accommodates all learners. Learning to touch type can transform the education outcome of learners with differences that impact the writing process, such as dyslexia, dyspraxia, dysgraphia, ASD, ADHD, and Tourette's.

KAZ's Specialised Features

The course's specialised features were developed with advice and guidance from the British Dyslexia Research Trust and the Thomas Pocklington Trust (Charity for the visually impaired). Their aim is to help overcome barriers to learning.

Customisable 'Preference Screen'

- Filter screens minimise blurring, steadying letter movement and addressing white screen glare.
- Selection of font colours for contrast.
- Dyslexia-friendly typefaces for ease of reading.
- Selection of font sizes to prevent the crowding and fusing of letters.
- Customised feature for learners with Meares Irlen Syndrome.

ABC Maestro Software

R1,220.00 (incl.VAT) (Single)

RT275-05-010

Learn to type, read and have fun!

ABC Maestro is a unique educational rehabilitation software for learning how to write, type, and read. It is currently available in English, German, Dutch, Croatian and Serbian language with many more languages to come. It is perfectly compatible with Clevy keyboard!

Learn faster while having fun

ABC Maestro has been designed to offer faster learning through play and includes a variety of letter, word, spelling and number learning games that perfectly accompanies the Clevy keyboard. Exercises include clear, visually adapted pictures and speech and a constructive feedback feature, providing an essential part of the learning process.

Students with special educational needs

It is specifically designed for users with special educational needs who are learning to write, type, and read and is an excellent solution for those with attention and concentration problems, fine motor skills, ocular coordination and visual perception problems. The included content is also beneficial for users with reduced cognitive abilities, dyslexia, dysgraphia, and often with a combination of a number of these difficulties.

Customizable software

ABC Maestro software features a broad range of individualised settings that can be fully customized for each user depending on their needs. Beginning with easier activities, the exercises are structured to lead up gradually to more challenging content, providing a learning resource that will enable users to practice and develop their skills over time.

Boardmaker Software

R5,620.00 (incl.VAT)

RT275-05-007

Access easy-to-print materials for learners of all ages. Enjoy an intuitive interface with built-in editing, templates and advanced search.

Create more, prep less

Create resources more efficiently with the world's leading symbol-based special education solution. Support learning and communication in the classroom, therapy room or home with this trove of customisable material, including access to over 45,000 Picture Communication Symbols (PCS).

Save time with searchable, ready-made material and curricula for learners of all ages and ability levels. Enjoy an intuitive interface with the ability to easily edit interactive or print templates.

Customisable

Engage symbol users more easily with activities that can be customised for their needs. Select from a diverse choice of PCS – designed to represent all learners – in the world's largest symbol library.

Shareable

Connect with over 500,000 members of the Boardmaker Community, including educators, parents and speech language therapists. Access over 90,000 free pre-made materials to share, use and store.

Compatible

Enjoy the flexibility to access Boardmaker on Windows, Mac and Chromebook laptop and desktop computers. Import and edit your favourite material from older versions of Boardmaker software.

Editor

Access and search over 45,000 PCS to create, edit, print and play materials intuitively, either from scratch or pre-made templates. Import, edit and reuse files from older versions of Boardmaker. Install the app to your computer for offline use when facing limited internet access. Included with all options.

Matrix Maker Plus

R3,794.00 (incl.VAT)

RT275-05-009

The Matrix Maker Plus is a software program that has been specifically designed to be the simplest and most affordable software for making communication overlays and education resources. With an easy to use intuitive interface, you can start creating and printing straight away with no need for training.

Features:

- Includes over 11 000 Widgit Symbols.
- Includes over 13 000 SymbolStix Symbols.
- Includes over 3000 IT Pictures.
- Bank of ready made templates ranging from switch and communication device templates and worksheets.
- You can add pictures from either the IT Media Library, the internet and your own pictures or take a picture with your webcam.
- Once pictures are added, your template will be ready for printing.
- Add text

Making Symbol and Picture resources is now easy as 1, 2, 3

1. Choose your template

- Matrix Maker Plus has a huge bank of ready-made templates.
- Over 100 commonly used communication devices and switch templates.
- A wide variety of low tech communication book templates to meet different needs.
- Add your own pictures to make motivational games and worksheets.
- Make personalised visual timetables, reward charts, stickers and certificates.

2. Add your pictures

Either from our IT media library with over 26,000 images, including the current and extensive SymbolStix and Widgit libraries. Search by keyword, category or alphabetically using our intelligent search system. Or use our time saving Internet option – go straight to Google images, click on the thumbnail of your choice and the image is immediately added to your template. Or add a photo instantly using the webcam feature. You can also browse to any folder on your computer to use your own pictures. Add these to the IT media library for fast future searching.

3. Choose your template

- Now simply print your communication board, worksheet, timetable or game.
- If you need to edit, there are simple intuitive tools to use.
- Drag and drop your pictures into the right place – pictures automatically swap and resize.
- Change the colour of cells and background.
- Alter size, colour and position of text.
- Tweak pictures and symbols with the simple paint tool.

Assistive Software

InPrint Software

R8,150.00 (incl.VAT) (Single)

RT275-05-009.2

Powerful symbol resource editor for unlimited creative potential. With its comprehensive design and layout features, InPrint is the ideal tool for creating quality symbolised resources that are fully bespoke to your requirements, whether used in educational settings, the home, or within the wider community.

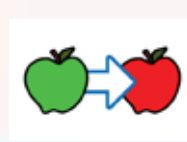

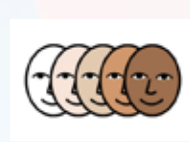

Giving you access to over 21,000 symbols, a comprehensive vocabulary of 100s of easy-to-use, editable templates, and a variety of ready-made resources, InPrint empowers SEN professionals, teachers, health practitioners, parents and carers to implement symbolised communications across any environment.

From Communication Boards to Visual Timetables, enjoy creating quality resources in any layout – the only limit is your imagination! What's more, the all-new InPrint comes with updated features and templates to help bring your creations to life.

Features:

- Symbols as you type
- Use your own photos
- Includes over 3000 IT Pictures
- Change symbol colour
- Customise symbol text
- Context-sensitive symbols

New features

Shuffle skin tones

This feature automatically randomises skin tones across your document, ensuring individual symbols (or symbols with more than one person) use varying skin tones.

New templates

When it comes to designing your own materials, choose from over 400 pre-formatted templates – covering areas as far ranging as Forms and Questionnaires to Emotional Support – with examples from our education team to help you.

New resources

Choose from over 400 pre-formatted templates – covering areas as far ranging as Forms and Questionnaires to Emotional Support – with examples from our education team to help you get started.

10 User (3 years) | R21,650.00 (incl.VAT) RT275-05-009.3

GoTalk Design Software

R1,615.00 (incl.VAT) (Single)

**RT275-05-009.4
RT275-05-014**

The new GoTalk DESIGN app lets you create overlays for all of your GoTalk devices. GoTalk DESIGN also includes templates to create standalone communication boards or cards and personal planning documents like calendars, daily planners, and lists.

Features:

- Personal planning documents like lists and calendars
- Includes images from Attainment curriculum
- Available for Windows, Mac, and web subscription

Use the Image Browser to search over 12,000 symbols and images from the built-in image library. The library also includes symbols and images used throughout Attainment's curriculum packages, making it easy to add content-specific images for ELA, math, science, and other subjects. Find more images using the built-in internet search or add your own pictures to personalize your overlays.

Use pre-populated My Cell templates to insert perfectly aligned images and text fields to your overlays. Save your frequently used cells for quick access when designing new overlays. Editing features allow you to adjust text colour, size, and font. Resize, rotate, or crop images. Add background colours and borders to individual cells to identify different parts of speech.

Platform: Windows, Mac, Web Based

Compatibility Desktop: Windows 10 and 11; Mac OS 10.13 or higher. iOS v11.0 or higher. Web version runs on Windows, Mac with minimum browser versions: Chrome v75, Safari v12.1, Microsoft Edge v18, Firefox v67, and 64-bit Chromebooks.

Assistive Software

Inspiration for Windows Perpetual

R1,720.00 (incl.VAT) (Single)

RT275-05-006.9

Much more than mind mapping, Inspiration is here to support your studies, work and personal goals.

Be Creative. Be Productive. Be Knowledgeable.

Simple to use, but powerful in the impact it has on users, Inspiration is the ideal visual thinking tool for creating mind maps, concept maps, graphic organizers, outlines and presentations with ease!

Inspiration makes it easy to quickly capture your ideas and visually organize them. Then, transfer your visual diagram to a written outline in just one-click, perfect for structuring writing projects.

Be Creative

Express your ideas using visual cues, such as colour coding, images and symbols, alongside keywords and phrases. Use Inspiration's free-form and flexible environment to create diagrams that reflect your thoughts.

Be Productive

Structure your ideas for written projects using Inspiration's Outline View. Keep track of research information and develop a logical flow for communication. Create checklists, presentations, process charts and more within Inspiration.

Be Knowledgeable

Use proven visual thinking and learning techniques to brainstorm ideas, explore and explain relationships, and integrate new knowledge. Inspiration encourages deeper critical thinking, comprehension and retention.

Inspiration Key Features:

- Brainstorm quickly with the RapidFire tool.
- Use Inspiration's images or import your own to represent information and trigger memory.
- Organize ideas effortlessly using the Arrange tool to create various tree diagrams and webs.
- Apply theming to colour code, highlight key concepts and group information.
- Use the Copy to Clipboard feature to export your outlines to Google Docs, OneNote and other apps.
- Use the content of your diagrams to build effective slides using Inspiration Presentation feature.
- Access 150 templates
- Transform diagrams and mind maps to outlines with one click. Outline View synchronizes with your visual view, so you can move seamlessly between visual and written expressions as needed.
- Keep visual connections intact with the option to see associated symbols and linking phrases from Diagram View in Outline View.
- Use the smart checklist feature to organise tasks.
- Save documents as PDFs.
- Use the Site Skeleton export to transform diagrams into HTML web sites.

Inspiration is designed to be used by everyone, but is particularly beneficial for users who:

- Often have to take extended recovery breaks from working to alleviate symptoms (e.g. mental health difficulties).
- Have difficulties organizing ideas and remaining focused long enough to get ideas written down (e.g. Autistic Spectrum Disorder or mental health difficulties).
- Find it hard to develop and deliver presentations.
- Have difficulty with short term memory, retaining and processing information.
- Get distracted when there is too much text to deal with.
- Find it challenging to express ideas in writing.
- Struggle with the structure and layout of essays.

TD Snap Software

R3,750.00 (incl.VAT) (Single)

**RT275-05-002
RT275-05-003
RT275-05-004.2**

TD Snap is a flexible software offering a choice of AAC solutions to help people with communication disabilities.

With a number of page sets to explore, professionals and families will find the right solution to meet their needs. TD Snap comes with several page sets developed by Tobii Dynavox, including Core First, Text, and Scanning, while page sets created by third parties such as PODD and Gateway are available via in-app purchase.

All TD Snap Page Sets are accessible via touch, eye gaze or switch, offering clear speech output. They also offer integrated access to a suite of powerful tools, such as intuitive search and editing, behavioural supports and Google Assistant.

TD Snap Tools:

Diversity

The Single Tone setting lets you apply any shade of skin tone and/or hair colour to all people symbols.

QuickFires

A set of commonly used pre-programmed phrases to communicate quickly during many typical daily situations.

Visual Support

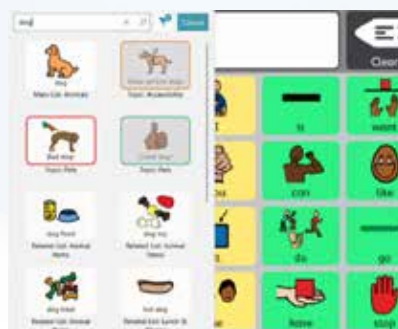

A set of visual supports such as visual schedules, timers and scripts to help with receptive language and self-regulation.

Editing Tool

An intuitive editing tool to help customize buttons to meet a communicator's unique needs.

Search Tool

A search bar to locate words and symbols with an easy-to-follow path to find them.

Google Support

Access to Google Assistant to find information, music, weather and more with the click of a button.

TD Snap is included with select Tobii Dynavox devices and is also available to purchase as a standalone app for iPad and Windows devices. Success looks different for everyone. TD Snap offers a suite of page sets, all eye gaze, touch and switch-enabled, to meet different communication needs and preferences.

Assistive Software

AccessIT 3 Software

R4,360.00 (incl.VAT) (Single)

Requires TD Snap 1.7 or higher

Bluetooth

Requires Bluetooth LE

PODD Software (A4 Version)

R5,000.00 (incl.VAT) (Single)

**RT275-05-012
RT275-05-013**

The Pragmatic Organisation Dynamic Display is a software program which provides practitioners with templates and guidelines to develop an appropriate communication book and also describes comprehensive strategies to enable the use of a system in a child's daily life, at home school and in the community.

Features:

- Suitable for people supporting children who are learning to communicate by using aided symbols such as graphic symbols, pictographs and whole written words
- Create a range of PODD communication books designed for children who use direct pointing with their whole hand, finger or pointer.

Communicator 5 Software

R9,350.00 (incl.VAT) (Single)

**RT275-05-003.2
RT275-05-004**

Communicator 5 AAC software is the cornerstone of the Tobii Dynavox software portfolio. It offers efficient communication for individuals with a wide range of speech and language disabilities by converting text and symbols into clear speech and offering access to Windows, e-mail, text messaging, telephone and environmental control via multiple access methods. Communicator 5 is simple to set up and get support – whether used on a Windows or Tobii Dynavox device.

Personalize with your choice of:

- Homepage and pageset content
- Text or symbol use (or both)
- Male and female child and adult voices
- Access via touch, eye gaze, scanning, switch, headmouse, mouse click, mouse dwell, and joystick

Designed to help the entire communication team with:

- A built-in step-by-step set up guide
- Easy editing tools to personalize content
- Unlimited number of profiles

Accessible Literacy Learning (ALL) software

R1,350.00 (incl.VAT) (Single)

RT275-05-006.12

The ALL™ Reading Program is an evidence-based approach designed to teach basic reading skills to nonverbal students who require augmentative and alternative communication (AAC). Students can learn using the access method that works best for them: touch, eye gaze or scanning. It's available on many platforms and devices including Windows and iOS, and our I-Series and I-110 devices.

A comprehensive reading program

- Sound-Blending – Build words by blending component sounds
- Phoneme Segmentation – Break words down to individual sounds
- Letter-Sound Correspondence – Recognize sounds by their letters and vice versa
- Single Word Decoding – Use letter-sound connection to sound out words
- Sight Word Recognition – Recognize a word without sounding it out
- Shared Reading – Take meaning from text to relate to prior knowledge

In the package:

- Progress reporting
- One installation with unlimited student seats
- Embedded video help
- Electronic user manual
- A free myTobiiDynavox account for managing users
- 40+ original shared reading books

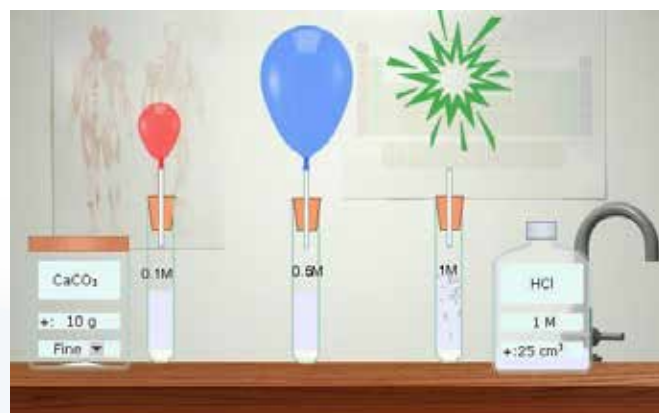

Sumdog (Yenka)

R21,780.00 (incl.VAT)

RT275-05-047.3

Yenka is a practical software program for students, using the new generation of educational modelling tools as a foundation for further development in mathematics, science, technology, ICT and computing.

Yenka can be used for experimental and accurate learning for each subject, since objects and substances in the software can interact with each other as they would in real life. Yenka is a cost effective and practical program which allows for safe science experimentation, 3D constructing and interactive content from the Yenka extensive online data base.

Licensing

- There is no recurring subscription cost – once you have purchased, you own it.
- There are 2 licensing structures: 1. Full Suite for 5 concurrent users 2. Full Suite Site Licence

The full Yenka Suite includes the following:

- Yenka Mathematics: Create 3D mathematical models, demonstrate statistics, probability, geometry and coordinates.
- Yenka Science: Virtual laboratories are ideal for science lessons, demonstrating concepts in a safe, accurate virtual world.
- Yenka Technology: Test electronic projects, and PIC or PICAXE programs, and produce 3D PCB layouts for classroom manufacture.
- Yenka ICT and Programming: Introduces programming in an engaging way, letting you control animated 3D characters using simple flowchart commands.

Made to perform and built to last. Work confidently on this rugged laptop with its military-grade (MIL-STD-810H) durability, reinforced IO ports, spill-resistant keyboard, and scratch-resistant Corning Gorilla Glass touchpad.

Advanced Connectivity

This business laptop keeps hybrid workers connected while on the move or at work with 2x2 Wi-Fi 6E. The wide array of ports further increase productivity with two Type-C ports, a smart card reader, and a microSD card reader.

Dynamo Maths is an interactive educational software designed to help students practice and improve their mathematical skills. It offers a wide range of exercises, covering various topics from basic arithmetic to advanced math concepts. The software adapts to the learner's abilities, providing personalized feedback and progress tracking to support skill development. Its engaging interface and adaptive learning approach make it suitable for students of all ages.

Dynamo Maths can also be integrated with curriculum activities in special needs and main stream schools.

Stage 1 - Lesson Plans: Over 230 multisensory pre-prepared Lesson Plans with printable resources written by dyscalculia experts. Each lesson plan is designed to engage the child with specific areas of dyscalculia or maths difficulties and develop conceptual understanding, thinking strategies and confidence with numbers.

Stage 2 - On-line Interactive Modules: Over 230 online interactive remediation modules designed to remediate dyscalculia difficulties and develop automaticity and intuitiveness with numbers through practice and reinforcement. The On-line Interactive modules have a simple and powerful reporting that informs you instantly of the gaps in learning.

Stage 3 - Dynamic Worksheets, Reinforcement and Reflection phase: Over 230 online interactive remediation modules designed to remediate dyscalculia difficulties and develop automaticity and intuitiveness with numbers through practice and reinforcement. The On-line Interactive modules have a simple and powerful reporting that informs you instantly of the gaps in learning.

Features

- Ideal for students with learning difficulties such as dyscalculia.
- Dynamo Maths is a combination of assessments and fun activities promoting maths among learners.
- Includes a curriculum and dyscalculia reference that can be integrated with lessons.
- It is an age-appropriate assessment that can be adapted to suit the learner's developmental profile for maths and numbers to be captured.
- The report systems enable remedial educators to understand the possible reasons for difficulties in their learning and structure interventions to take place and support the learner's development.

What is Dyscalculia?

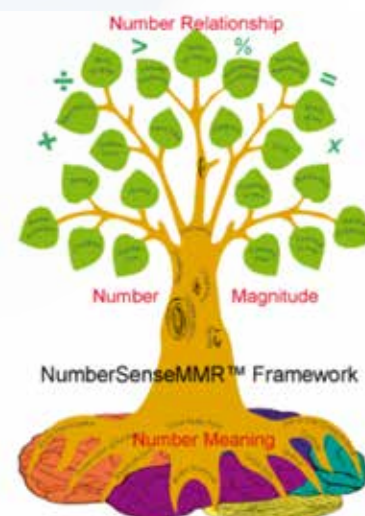

Dyscalculia is a condition that affects the ability to acquire mathematical skills. Dyscalculic learners may have difficulty understanding simple number concepts, lack an intuitive grasp of numbers, and have problems learning number facts and procedures.

What about Dyslexia?

Dyslexia is a spectrum of disorders that involve difficulty in learning to read or interpret words, letters, and other symbols. Often, those who have difficulties in deciphering written words should also have difficulty in learning the sets of facts, notation and symbols that are used in mathematics. This pattern of abilities and weaknesses is known as 'specific learning difficulties'. Dyslexics usually experience problems with the language of mathematics, sequencing, orientation and memory, rather than with the mathematics itself.

Dynamo for Autism

It is a well known fact that children with Autistic Spectrum Disorder (ASD) have special interest in numbers through repetitive behaviors and can take the form of intense preoccupations or obsessions. With some children, this extreme interests in numbers, symbols, dates or locations on maps can take years before the understanding of maths concepts behind numbers emerges.

TextHelp Read&Write

R5,140.00 (incl.VAT) (Single)

RT275-05-037

TextHelp Read&Write Gold literacy support software is used by students and professionals around the world to assist them to overcome barriers to reading and writing. The toolbar supports individuals who struggle with literacy difficulties (including, but not limited to dyslexia). The toolbar can also be useful to students with English as a second language, or even just for proof reading and productivity.

TextHelp Read&Write Gold is a discrete, easily customisable toolbar that integrates reading, writing, studying, and research support tools with common applications such as Microsoft Word and internet browsers. TextHelp Read&Write Gold is suitable for your PC, Mac or iPad and is even available as a mobile flash stick application to be used on public use computers.

TextHelp Read&Write Gold assists with reading fluency and comprehension. The software facilitates research, writing, studying and test taking. The toolbar integrates with commonly used mainstream applications such as Microsoft Office. It encourages independence and inclusion in an inclusive education environment.

Benefits of TextHelp Read&Write

- TextHelp Read&Write Gold assists with reading fluency and comprehension
- The software facilitates research, writing, studying and test taking
- The toolbar integrates with commonly used mainstream applications such as Microsoft Office
- Encourages independence and inclusion in an inclusive education environment

Create more independent learners

Help students to study, revise, proofread and increase their understanding. Useful tools in TextHelp Read&Write such as highlighters, voicenotes, vocab tools (allowing you to read what I type for example), audiomaker and more help students to study smarter, more independently and to a high standard.

Motivate students to learn

Struggling learners can use the tools in TextHelp Read&Write to gain motivation and support to make progress in their learning. Helping them to express themselves with increased fluency and confidence. Helping to improve their reading and comprehension skills, and build their engagement in learning as a result.

Help students to study smarter

Provide students with digital resources to scaffold their learning. Vocabulary and definition resources, activities, study guides and MP3 versions of current resources are easily created with the tools in TextHelp Read&Write.

Assistive Software

MathType Braille Translation

R1,250.00 (incl.VAT)

RT275-05-027

MathType is a powerful interactive tool for Windows and Macintosh that lets you create mathematical notation for word processing and desktop publishing documents, web pages, presentations, and for TeX & LaTeX and MathML documents. MathType is the Professional Version of Equation Editor that is included in Microsoft Word, Corel, WordPerfect, AppleWorks and many other products.

Equation Editing Features:

- Automatic formatting
- Comprehensive collection of symbols & templates
- Precise formatting ruler
- International character & keyboard support
- Insert Symbol dialog
- Add/delete rows & columns to a matrix
- Reset Size command
- Alignment options for parentheses, brackets, etc.
- Equation viewing features
- New spacing dimensions

Time-saving Features:

- Powerful tools for Microsoft Word & PowerPoint
- Batch equation export (EPS, GIF, WMF, PICT) from Word
- Customizable equation toolbar
- Customizable keyboard shortcuts
- Customizable function recognition
- Drag & drop equation editing
- Unlimited undo & redo

TextAid Software

R2,550.00 (incl.VAT) (Single)

RT275-05-037.5

Assistive Technology for Learning Disabilities and Literacy Support. Speech-enables any text making it accessible to all.

The task of helping struggling readers stay motivated and at grade level is a difficult one. ReadSpeaker TextAid helps teachers, institutions, and parents face accessibility challenges with its reading, writing, and studying tool, helping those with learning difficulties, such as dyslexia, and language learners to become confident, autonomous learners.

Users listen to an audio version of assignments, textbooks, web pages, scanned notes, personal documents, and more, while reading along with the highlighted text.

100% Web-based

- No downloads required. Any saved texts and uploaded documents can be accessed anytime, anywhere from any internet-connected device and browser.

Talking Calculator

- Read numbers and calculations.

Reading Language, Voice, and Speed

- Choose up to five reading languages from the 20+ languages available. Some languages offer multiple voices. You can also adjust the reading speed to your comfort level.

Features:

- Improve comprehension
- Increase self-confidence and performance
- Give independence to choose when, where & what to read
- Motivate reluctant readers to read more
- Students stay at peer level in all subjects
- Reduce IEP budgets

Kurzweil 3000 Standalone

R35,980.00 (incl.VAT) (Single)

RT275-05-037.4

A comprehensive suite that provides a number of support tools for individuals with barriers to learning. This inclusive software provides learners with barriers with the tools needed to unlock their potential! It is an educational support software that combines access and support in one easy-to-use solution. The software provides support for reading, writing and study skills. A platform for whole class, small group, or individual instruction!

Features:

- Text-to-Speech
- Reads any digital text aloud, including the Internet
- Highlighters and sticky notes
- Vocabulary study guides
- Writing templates
- Word prediction
- Talking spell checker
- Easy access to all major digital formats
- Graphic organizer

Eye Gaze Learning Curve

R8,990.00 (incl.VAT) (Single)

RT275-05-034

The first ever collection of 54 fun and engaging interactive activities specially created to teach early eye gaze access and develop choice making skills

Please note: Learning Curve software is downloadable software delivered via email

- This collection takes users on the learning curve from assessment and cause and effect understanding through to using eye gaze for communication, learning and leisure.
- Inclusive EyeGaze can be used by teachers and therapists as an assessment tool to determine visual skills and potential use of eye gaze and as a progressive teaching tool that provides structure and lots of opportunities for practice at each level.
- All users on their first steps with eye gaze can use these activities to improve their accuracy and understanding of eye gaze in preparation for using other communication and learning software.
- By using relevant vocabulary, pictures and sounds and lots of variety, the activities will also offer many opportunities for users with additional needs to develop early interaction, communication and learning skills.
- Most importantly, we hope that our carefully chosen activities will ensure success and motivation at each stage with games that learners will love and want to play again and again.

5 User | R18,080.00 (incl.VAT) RT275-05-034.2

Sensory Eye FX Software

R14,700.00 (incl.VAT) (Single)

RT275-05-035

Magic Eye FX is a fun and accessible entry point for developing access, communication and interaction skills. It is an innovative Eye Tracking Software with Built-in Assessment and Recording Features.

Develop Eye Gaze Skills with Ultimate Customisable Assessment Software

Magic Eye FX is an interactive eye-tracking software designed to enhance access, communication, and interaction skills through creative play and gaming. Supporting various input methods - including eye gaze, speech, switches, touch, game controllers, mouse, and keyboard - it offers a diverse range of thoughtfully designed activities suitable for users of all abilities. The features include:

Inputs

Supports Eye Gaze, Touch, Switches, Mouse, Game Controller and more.

Create

Create activities using our custom content tools and personalise to individual needs

Recording

Record real-time screen interaction and playback after the session.

Visual Stimulation

Add stimulating particle effects to harness visual attention.

Backgrounds

Set colours, images, videos or live camera feed as background layers – videos that play on switch or gaze!

Real-time Stimuli

Use speech or keyboard inputs to present visual stimuli into the screen on the fly.

Full Screen Effects

Enhance your activity designs using the full-screen camera effects like water ripple or a spooky film filter.

Assistive Software

Big Bang Patterns

R1,325.00 (incl.VAT) (Single)

RT275-05-017.11

Another title in the Big Bang collection for those working with people with more complex special needs.

Please note: Big Bang Patterns software is downloadable software delivered via email.

Big Bang Patterns contains over sixty different animations in two bright colours, with lively music and sound effects to encourage response and interaction. Three different activities allow the program to be used for cause and effect work or simply at an experiential level. A set of useful options lets you change the colours and otherwise tailor the activities to your students' specific needs.

5 User | R2,447.00 (incl.VAT) RT275-05-018.21
Site | R3,795.00 (incl.VAT) RT275-05-018.22

Big Bang Pictures

R1,325.00 (incl.VAT) (Single)

RT275-05-017.12

In response to the popularity of Big Bang, we have developed additional software for students with more complex special needs.

Please note: Big Bang Pictures software is downloadable software delivered via email.

Big Bang Pictures has twenty animating pictures of everyday objects displayed in only two colours, for maximum visual effect. The eye-catching animations have been designed with three levels of visual complexity. The program includes exciting music and sound effects. Big Bang Pictures can also be used at an experiential level to encourage looking and listening. Configurable options allow you to meet individual needs.

5 User | R2,447.00 (incl.VAT) RT275-05-018.23
Site | R3,795.00 (incl.VAT) RT275-05-018.24

IT Mouse Skills

R1,015.00 (incl.VAT) (Single)

RT275-05-041

A series of activities specially designed to teach mouse skills in an entertaining and visually appealing atmosphere.

Please note: IT Mouse Skills is downloadable software delivered via email.

Learners are taken stage by stage through the many applications of the mouse. Move the mouse over an object, drag and drop, drag along a path and the use of drop-down menus are all represented. Various clicking activities can be found such as clicking anywhere, click timing and double clicking.

Many games options are configurable, such as the complexity of the task. Background graphics may be switched off to provide a high contrast visual appearance. Colours, sound effects and background music may be similarly customised. Setups will be remembered when restarting the program.

Slideshow Maker

R1,778.00 (incl.VAT) (Single)

RT275-05-017.30

This software makes it easy for the busy SEN or early years practitioner to make simple slideshows with accompanying music for early switch users.

The slideshows can be used with a touch screen, plasma or mouse. Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches. This is useful for teaching two switch control or taking turns and is invaluable for learners with PMLD or those learning to make choices using a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time.

For early choice making, a picture board can be set up with between two and nine pictures to choose from by pointing, switch scanning or using the mouse.

5 User | R3,345.00 (incl.VAT) RT275-05-018.59

Assistive Software

Switch Skills 1

R1,325.00 (incl.VAT) (Single)

RT275-05-015

This collection of easy switch timing activities is fun for all ages. The activities have exciting themes that provide all the motivation needed to help students who understand cause and effect to develop more disciplined switch use. The activities also encourage speaking and listening and help develop concentration skills. The bright, clear graphics are suitable for those with visual impairment and there is lots of sound and music too.

Specifications:

- Compatible with: Windows: 7 / 8 / 10 / 11
- Switch Skills 1 is now delivered by download (with an activation key).
- MSI installer is available for site licence customers.
- An active internet connection required for installation/activation.

5 User | R2,447.00 (incl.VAT) RT275-05-015.2
Site | R3,795.00 (incl.VAT) RT275-05-015.3

Switch Skills 2

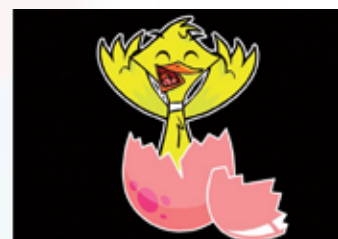

R1,325.00 (incl.VAT) (Single)

RT275-05-015.4

This software provides twenty activities at an elementary level. Press the switch or the touch screen when a big, bright object appears, and see an animated reward. Exciting music promotes interest. Higher level activities require more visual discrimination, although most can still be played successfully by those with severe visual impairment. Configurable options allow you to meet individual needs or develop learners' skills in small steps.

Specifications:

- Compatible with: Windows: 7 / 8 / 10 / 11
- Switch Skills 2 is now delivered by download (with an activation key).
- MSI installer is available for site licence customers.
- An active internet connection required for installation/activation.
- Topics range widely and appeal to a wide range of age.

5 User | R2,447.00 (incl.VAT) RT275-05-015.5
Site | R3,795.00 (incl.VAT) RT275-05-015.6

Switch Skills 3

R1,325.00 (incl.VAT) (Single)

RT275-05-015.7

This software provides fifteen activities at a higher level than Switch Skills 2, split into four sections. The first activity is Splat the Clowns – watch a clown move across the screen and throw a custard pie at him when he reaches the middle. Other games of a similar nature have themes appropriate for older learners.

Specifications:

- Compatible with: Windows: 7 / 8 / 10 / 11
- Switch Skills 3 is now delivered by download (with an activation key).
- MSI installer is available for site licence customers.
- An active internet connection is required for installation/activation.

SwitchIt! Technology Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017

This software series covers twelve everyday technologies, sometimes with unexpected results!

We can sympathise with the character trying to turn on their television when faced with a selection of remote controls, and everyone has had a disaster with overloaded supermarket carrier bags! We are sure that lots of classroom discussion will be encouraged with everyone sharing their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more – great as preparation or follow up for a visit.

5 User | R2,898.00 (incl.VAT) RT275-05-018
Site | R4,243.00 (incl.VAT) RT275-05-018.2

SwitchIt! Dinosaurs Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.2

Encounter lots of fascinating creatures in this exciting addition to the SwitchIt! series. Look at the dinosaurs' behaviour, their habitat and how they hunt or forage. See the pterodactyl catch fish to eat – but what eats the pterodactyl? What happens when the cavemen encounter a sabre toothed tiger? See if anyone can roar louder than the tyrannosaurus rex. It also covers a brontosaurus, triceratops, velociraptor, stegosaurus and more.

5 User | R2,898.00 (incl.VAT) RT275-05-018.3
Site | R4,243.00 (incl.VAT) RT275-05-018.4

SwitchIt! Sports Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.3

This SwitchIt! program contains twelve animated stories demonstrating different sports, plus flashcards and animations for cause and effect work.

Watch the footballers use teamwork to score a goal. Find out why going jogging is good for you. Sprinting, rounders and other sports played in school and college are also featured. Sports played by people with disabilities are included, such as wheelchair basketball, boccia and new age kurling. SwitchIt! Sports Extra may be used as part of the PSHE curriculum to promote healthy living skills.

5 User | R2,898.00 (incl.VAT) RT275-05-018.5

SwitchIt! Christmas Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.4

SwitchIt! Christmas Extra has all the joys of the festive season in a fun packed, educational and switch accessible program.

Your learners can build a snowman, watch carol singers, pull a cracker, see Santa on his adventures down a chimney and decorate the tree – all on-screen and with the addition of entertaining sound rewards. See New Year celebrations and fireworks too.

5 User | R2,898.00 (incl.VAT) RT275-05-018.7
Site | R4,243.00 (incl.VAT) RT275-05-018.8

SwitchIt! Farm Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.5

SwitchIt! Farm Extra has been designed to develop and demonstrate understanding of cause and effect through pressing a switch (or other input device) to build a scene.

Twelve little animations each based upon farm animals and rural life. Each sequence has 5 steps, carefully chosen to maximise speaking and listening. Build pictures and see them animate, or use the one-step option for basic cause and effect. Flip through a selection of large pictures that relate to the theme.

5 User | R2,898.00 (incl.VAT) RT275-05-018.9
Site | R4,243.00 (incl.VAT) RT275-05-018.10

SwitchIt! People Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.6

SwitchIt! People Extra has been designed to develop and demonstrate understanding of cause and effect through pressing a switch (or other input device) to build a scene.

Your learners will know all about how the nurse, traffic cop, the police force and others carry out their work.

5 User | R2,898.00 (incl.VAT) RT275-05-018.11
Site | R4,243.00 (incl.VAT) RT275-05-018.12

SwitchIt! Weather Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.7

This software explores the weather theme with a group of characters designed to appeal to both young and older children.

It covers the sun, wind and rain and their effects – keeping warm, keeping cool and a selection of meteorological phenomena such as thunderstorms and rainbows. You can even go sledging or jump in the big puddle! You can use a keyboard, mouse, switch, touch monitor or Intellikeys.

5 User | R2,898.00 (incl.VAT) RT275-05-018.13
Site | R4,243.00 (incl.VAT) RT275-05-018.14

SwitchIt! Hygiene Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.8

This software covers a range of switching activities including picture builds, stories and flashcards, this time on the theme of personal hygiene. The areas covered include: showering, cleaning teeth, hair care, clean clothes, food hygiene and being well dressed.

This is a great way of accessing the PSHE Curriculum. Activities are fully configurable to meet the needs of different learners.

5 User | R2,898.00 (incl.VAT) RT275-05-018.15
Site | R4,243.00 (incl.VAT) RT275-05-018.16

SwitchIt! Transport Extra

R1,550.00 (incl.VAT) (Single)

RT275-05-017.9

This software covers twelve transport themes each with activities at three levels, flash cards, picture builds and stories.

There are twelve "stories" featuring different types of transport, each press moves the story forward with an animation at each step. This offers lots of opportunity for language development and is very effective when used with group of learners. While being for the most part, realistic stories incorporate some surprises and great touches of humour should an airliner loop the loop!

5 User | R2,898.00 (incl.VAT) RT275-05-018.17

Choose and Tell: Nursery Rhymes

R1,325.00 (incl.VAT) (Single)

RT275-05-017.15

Choose a character from a popular nursery rhyme and tell your own story. You decide what happens next! Choose from Humpty Dumpty, the Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep.

Decide where you want them to go, how they will travel and what they will do when they get there! Take Baa Baa Black Sheep off to the beach on a space rocket. Or will Humpty Dumpty visit the castle on his green boat? This is a great way to get children using their imagination and taking control of the story by making their own decisions. The results are beautifully illustrated, always entertaining and delightfully comical! Also features auditory scanning.

5 User | R2,447.00 (incl.VAT) RT275-05-018.29
Site | R3,795.00 (incl.VAT) RT275-05-018.30

Choose and Tell: More Nursery Rhymes

R1,325.00 (incl.VAT) (Single)

RT275-05-017.16

Nursery Rhymes' was so popular that we've created another one like it, but with different nursery rhyme characters.

Features:

- Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat.
- Take Little Bo Peep off to the jungle on a flying carpet. Or will Pussy Cat go to the desert on his digger?
- Great for getting children using their imagination.
- Lots of fun adventures to enjoy, with delightfully comical results.
- Images are available for printing or for children to colour in.

5 User | R2,447.00 (incl.VAT) RT275-05-018.31
Site | R3,795.00 (incl.VAT) RT275-05-018.32

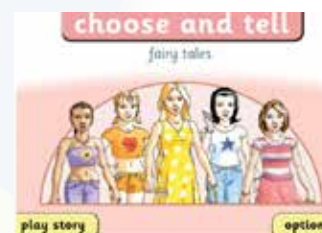

Choose and Tell: Fairy Tales

R1,325.00 (incl.VAT) (Single)

RT275-05-017.17

Modern yet magical, Choose and Tell: Fairy Tales brings the classics to life. Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel.

Decide whether to travel in a pumpkin coach, or go for a funky moped or some groovy rollerblades. Will your heroine visit a fairy tale castle, a palace, a candy cottage or a tower – or will she go to the supermarket? You will encounter a whole variety of fairy tale characters in this program, from the Beast to Rumpelstiltskin. Will your heroine find her Prince Charming – or will a magical kiss lead to a completely different surprise? The familiar characters will enchant your children, while encouraging them to use their imaginations, make decisions and think about creating a narrative.

Infant Image Workshop

R343.00 (incl.VAT) (Single)

RT275-05-045

Children at Foundation and Key Stage 1 will enjoy using the Infant Image Workshop to create exciting scenes and images. The title provides an easy-to-use, intuitive framework to enable the user to use the images provided to create their own collage.

Providing topics ideal for the classroom, this product allows the user to create a layout of a town, make a minibeast scene, build a face and layout a scene based on fantasy and fairy tales. The graphical interface with pop-up menus makes it easy to click and drag images into position and all screens can be saved, printed or copied.

20 User | R1,386.00 (incl.VAT) RT275-05-045.2
Site | R2,079.00 (incl.VAT) RT275-05-045.3

Junior Image Workshop

R343.00 (incl.VAT)

RT275-05-045.7

The Junior Image Workshop provides a selection of images and artwork to enable children to easily create scenes and images of their own. Based around a simple menu system, the user can select images which can be scaled or rotated as required. The clear interface provides topics covering Egyptians and inside a pyramid, laying out a room, tessellating patterns and outdoor environments. This title features pop-up picture menus that make it simple to click and drag images into position.

Lets Go To Town

R1,325.00 (incl.VAT) (Single)

RT275-05-017.13

Let's Go To Town features 9 story-based interactive scenes with linking animations to provide cohesion.

First catch the bus and we're off! Once there you can choose clothes and food at the market, buy an ice-cream or lolly in the square, post a letter and finally catch the bus home again at the bus station. Let's Go To Town is designed to promote decision making and encourage discussion of the real-life activity at a basic level. The story and presentation has been aimed at students of all ages, principally with severe learning difficulties and/or little reading ability.

The large eye-catching animations are designed with the visually impaired student in mind, and fun for all of us! The limited interaction is also very useful for students learning scanning using one or two switches.

Lets Go To The Seaside

R1,325.00 (incl.VAT) (Single)

RT275-05-017.14

Take a trip to the beach. Go paddling, choose sunglasses and a hat, try out a telescope or explore a rock pool. You can build your own sandcastle too, complete with flags, shells and tunnels.

Let's Go To The Seaside is a delightful onscreen story book with decision making activities and animations to link the story together. It encourages the discussion of preferences and promotes life skills.

Let's Go To The Seaside is also useful for developing early reading skills, recognising patterns and matching sizes and colour. It covers staying safe in the sun and picking up litter. Learn a simple sequence by making an on-screen sandwich.

Assistive Software

Counting Songs 1

R1,325.00 (incl.VAT) (Single)

RT275-05-017.19

This fun and stimulating software is aimed at children just mastering early number. It features ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5.

Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages: playing all the way through; counting before each verse; asking the child to count before each verse. A set of accompanying activities consolidate and expand the children's counting skills. These are also offered in three progressive stages: simple counting of one character after another, counting characters along a number line, and identifying sets of objects. The program can be used with a touch screen, mouse or switches.

Counting Songs 2

R1,325.00 (incl.VAT) (Single)

RT275-05-017.20

This software features ten original, contemporary-style songs with entertaining animations, designed for children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down.

The catchy songs, along with a set of interactive activities, are offered in three progressive stages. Counting Songs 2 motivates the older child while respecting their greater years. It may also be suitable for some early years learners and teens.

Show Me Math Software

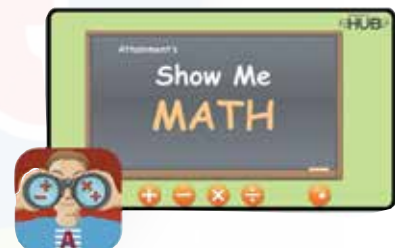

R1,605.00 (incl.VAT)

RT275-05-043.73

This is a math practice program for all four math operations with numbers up to 20. Show Me Math uses a visual instructional process to help students understand math problems. Users can select answers with a keyboard, by selecting the answer from a multiple choice format, or by drawing the number with their finger on iPad or Android. Students can choose from four Show Me animated characters: sheep, ants, jelly beans, or ping-pong balls.

Features:

- NEW web-based version available
- Provides animated movies to teach and help students solve problems
- Links computations with objects through short animations
- Variety of question formats help increase engagement
- Tracks individual student progress for easy access and printing
- Covers addition, subtraction, multiplication, and division

ChooseIt! Ready-Mades Numeracy - All 8 Titles

R5,370.00 (incl.VAT) (Single)

RT275-05-043

ChooseIt! Ready-mades Numeracy – All 8 Titles contains activities within the Numeracy series that map directly to Foundation Stage, P-scales or National Numeracy Strategy targets.

Each of the 20+ activities consist of a graded sequence of 20 to 40 simply presented multiple-choice questions. Correct answers result in a short animated sequence with music and spoken reinforcement while a fun 'monkey story' game adds to the motivation.

Full speech support and switch access options provide access to learning by almost all students and simple performance reporting allows you to record student progress.

Paws Explore: Fractions

R412.00 (incl.VAT)

RT275-05-043.7

Join the Paws Explore duo (a friendly cat and dog) in a selection of fun activities that help children to develop and practice the topic of fractions. The narrated activities with 3 levels of difficulty create a fun environment for the player to practice recognising and identifying fractions of objects & numbers and matching fractions with pictures.

Features:

- Certificate printing facility included.
- Positive rewards and animations used throughout.
- Includes games based on identifying, matching and equivalent fractions.
- Includes games based on identifying, matching and equivalent fractions.

Paws Explore: Money

R412.00 (incl.VAT)

RT275-05-043.10

Paws Explore: Money is a title specially designed to help children practice and develop their money recognition skills, through a range of fun activities. With 3 levels of difficulty and two friendly cat and dog characters, children can practice swapping coins and notes for smaller amounts, calculating change and formatting currency.

Features:

- Currencies included: British pounds, Euros, Australian, Canadian and American Dollars.
- Entertaining animations with Kelly and Robbie.
- Develop essential money handling skills.
- Six enjoyable games

Percy Gets Measuring

R412.00 (incl.VAT)

RT275-05-043.22

This software is designed to help children explore the subject of measurement. Percy Gets Measuring, introduces the topics of length, capacity and weight in a selection of interesting activities. Children can practice using a set of balances on-screen to compare and match weights. Length is explored with activities involving measuring and comparison.

Features:

- Fun activities with interesting graphics and spoken instructions.
- Explore length by measuring and comparing lengths.
- Explore capacity by filling containers and comparing volumes of liquid.
- Explore weight by using balances and selecting items of a given weight.

20 User | R1,663.00 (incl.VAT) RT275-05-043.23

Percy Gets Into Shapes

R412.00 (incl.VAT)

RT275-05-043.4

Based around the themes of shape, size and colour, this program provides a number of educational games designed to entertain and excite children's minds to develop sequencing, comparison and matching skills. Shapes are explored by matching outlines to pictures of everyday objects, as well as distinguishing between commonly found shapes. Children can practice finding and sorting objects according to size, whilst colour is explored by following Percy the caterpillar's instructions to colour images correctly.

Features:

- Features activities based on size and colour.
- Exciting animations and graphics.

20 User | R1,663.00 (incl.VAT) RT275-05-043.5

Percy Keeps Counting

R412.00 (incl.VAT)

RT275-05-043.28

This title in the Percy range is designed to further develop children's counting skills! The fun activities included in the program encourage the user to practice counting in different contexts, including counting on from a number and counting in twos, fives and tens. In addition, the player can practice counting organised and randomly placed objects, as well as being encouraged to sort items before they count.

Features:

- Fully narrated for unsupervised learning.
- Hosted by Percy the caterpillar, with fun animations at the end of each game.
- Covers the topics of counting, counting on and counting back.

20 User | R1,663.00 (incl.VAT) RT275-05-043.29

Percy Learns Time

R412.00 (incl.VAT)

RT275-05-043.31

Children can join Percy the caterpillar to practice skills involved with time. As a program designed for Key Stage 1, spoken instructions, colourful graphics and animations make this ideal for unsupervised use in the classroom. The six activities feature both analogue and digital clocks and encourage the player to participate in activities that involve reading the time, setting a clock to given times, finding a clock with a given time, placing events in the correct order and working out time.

Features:

- Quarter-hour activities can focus on quarter to, quarter past or both.
- Printable activity sheets included to use away from the computer.
- Covers 1 hour, ½ hour and ¼ hour time increments.
- 3 levels of difficulty.
- Fully narrated throughout for unsupervised use.

20 User | R1,663.00 (incl.VAT) RT275-05-043.32

Percy Teaches Maths

R412.00 (incl.VAT) (Single)

RT275-05-043.37

Stimulating graphics, speech and sound effects accompany a range of educational activities that will enable children to build a solid foundation in early mathematics. The friendly caterpillar, Percy, asks the children to help him complete interesting activities that involve simple sums using both numbers and pictures, dividing objects into sets, comparing objects of different sizes and sorting them into sequences. This software can be easily used unsupervised and is also suitable for use with touch screens.

Features:

- Fun activities and exciting animations.
- Covers simple counting, addition and subtraction.
- Printable worksheets for use away from the computer.
- Three levels of difficulty and fully narrated.

20 User | R1,663.00 (incl.VAT) RT275-05-043.38

Percy's Money Box

R412.00 (incl.VAT) (Single)

RT275-05-043.52

This software is designed to encourage children at Key Stage 1 to learn and recognise monetary values and handle money in everyday situations. Colourful graphics, animations and spoken instructions throughout make this program ideal for unsupervised use in the classroom. The activities include practice on recognising different coins, encourage purchasing items using the correct coins, practice converting between differing amounts of money, giving correct change and recognising prices in a shop, including on a shopping list.

Features:

- Can be configured to use British pounds, Euros or American, Canadian or Australian dollars.
- Explore all aspects of using money in everyday situations.
- Fully configurable by the teacher.

20 User | R1,663.00 (incl.VAT) RT275-05-043.53

Percy's World of Numbers

R412.00 (incl.VAT) (Single)

RT275-05-043.55

With the friendly caterpillar, Percy, children are encouraged to develop their counting and number recognition skills, through a series of fun activities. An animated on-screen number book, introduces the user to numbers up to 20 and recognising numbers. The activities are designed to build on the child's skills, with 3 difficulty levels, to cover the themes of counting, comparing numbers, sequencing numbers and ordinal numbers.

Features:

- Covers counting, recognising numbers, number sequences and ordinal numbers.
- Features an animated on-screen number book.
- Colourful, engaging animations to encourage learning.
- Fun and easy-to-use unsupervised.
- Learn to recognise numbers and count to twenty.

Percy Has Fun With Science

R412.00 (incl.VAT) (Single)

RT275-05-044.10

Percy, the friendly caterpillar, explores the topic of science in this game that includes a wealth of activities for children at Key Stage 1. Being suitable for unsupervised use with narrated text and 3 levels, this title covers the main areas of life processes, materials and their properties and physical processes. The topics covered include electric circuits, magnets, the properties of materials, forces, changing shapes, natural and man-made materials, food, plants and differences & similarities.

Features:

- Fully narrated, for easy unsupervised use.
- Covers the subject areas of life processes, materials and physical processes.
- Fun activities with an animated reward when the activity is complete.

20 User | R1,663.00 (incl.VAT) RT275-05-044.11

Paws Explore: Electricity and light

R412.00 (incl.VAT)

RT275-05-044.19

This exciting title in the Paws Explore series covers the themes of 'Using electricity', 'Circuits and conductors' and 'Light and shadows' with a selection of fun activities.

With the help of Kelly and Robbie (the two Paws Explore characters), children can enjoy creating simple electric circuits, exploring the conductivity of different materials, understanding different ways of changing a bulb's brightness and using switches. The product also explores shadows and how shadows created by the sun can change throughout the day.

Player's progress can be recorded in the extensive teacher's section, whilst the title is fully narrated and suitable for unsupervised use.

Features:

- Part of the Paws Explore range of titles.
- Designed for age range 6-8 years and great for unsupervised home use.
- Exciting graphics and fun animations in each game.
- Learn about shadows and how they are created.
- Investigate electricity, simple circuits and conductivity.

ChooseIt! Ready-made Science - All 5 Titles

R3, 345.00 (incl.VAT) (Single)

RT275-05-044

ChooseIt! Ready-mades Science – All 5 Titles contains activities within the Science series that cover the science curriculum at Key Stage 1 and 2.

ChooseIt! Ready-mades have proved a valuable resource for children with special needs, with a simple and consistent presentation, clear language, switch accessibility and full audio support. Performance reporting is built-in. Ideal for individual use and for group use on an interactive whiteboard or plasma screen.

1. Foundation living things

This comprises 32 simple activities which introduce the topics of human beings, animals and plants as well as the world around us. These map directly to the Foundation Stage targets.

2. Living things

This contains 38 slightly harder activities which develop the knowledge gained from Life Processes and Living Things and maps directly to Key Stage 1 and 2 of the Science National Curriculum.

3. Materials

These 30 activities look at materials from everyday life and their properties and cover both the Foundation and Key Stages 1 and 2 of the Science National Curriculum.

4. Forces and Electricity

The Physical processes area from the Science National Curriculum document at Key Stage 1 and 2 has 30 graded activities covering electricity and forces.

5. Light, Sound and Space

The 31 activities cover the topics of Earth and Space and Light and Sound. The activities on Space have been extended into KS3 to give a wider breadth of knowledge to the pupil's interest in this popular area of science.

Should these activities content not quite fit your specific needs, you can create your own using ChooseIt! Maker 3. ChooseIt! Maker 3 is very easy to use and allows you to change the text, pictures, speech or music in an activity.

ChooseIt! Ready-made Literacy - Everyday Words

R770.00 (incl.VAT) (Single)

RT275-05-017.22

ChooseIt! Ready-mades Literacy – Everyday Words contains activities within the Literacy series that map directly to the DfES Primary Strategy Letters and Sounds document.

This software provides practice in recognising, hearing, matching, reading and spelling everyday words for colour, number, days of the week, months and seasons. There are over 550 individual pages of activities. Each activity has a graded sequence of 20 to 40 simply presented multiple-choice questions, which are structured using a positive reinforcement strategy. Correct answers result in a short animated sequence with music and spoken reinforcement, while full speech support and switch access options provide access to learning by almost all students.

Percy's Alphabet Workshop

R412.00 (incl.VAT) (Single)

RT275-05-042.4

In an easy and fun way Percy the caterpillar invites children to explore the letters of the alphabet and the sounds, and at the same time will encourage them to recognise various objects that start with the same initial letter. Graphemes and phonemes are also covered as Percy looks at the pronunciation and spelling of simple words.

From then on the children assist Percy with activities that are packed with photographs and speech, which will help them recognize the letters alphabet and begin to read a variety of words. The games include activities that allow children to choose the correct letter for the objects displayed, to match sounds with letters and to decide which letter is missing from simple words. The game includes options to have letters to be pronounced by either their names or their sounds.

Features:

- Includes printable worksheets
- 3 levels of difficulty

20 User | R1,663.00 (incl.VAT) RT275-05-042.5
Site | R2,495.00 (incl.VAT) RT275-05-042.6

Percy's World of Words

R412.00 (incl.VAT) (Single)

RT275-05-042.16

Join Percy, the friendly caterpillar, as he encourages the player to join in with a selection of fun activities in Percy's World Of Words.

The title features fully narrated text and 3 levels of difficulty to enable the player to develop their word and phonic skills. The activities, that can be used unsupervised, include topics covering spelling, rhyming words and a variety of phonics for the age group, such as initial & final phonemes and blends.

Features:

- Add your own words, spelling lists and speech – Ideal for extra practice
- Printable activity sheets supplied

20 User | R1,663.00 (incl.VAT) RT275-05-042.17

Percy's Learning Box: 1

R1,245.00 (incl.VAT) (Single)

RT275-05-043.40

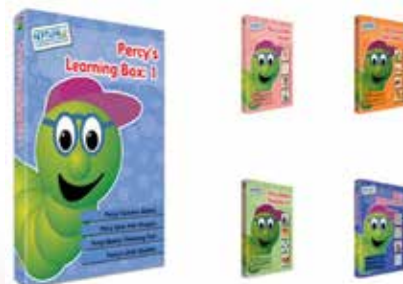

Percy's Learning Box 1 is a compilation of 4 'Percy' titles that cover counting, addition, subtraction, grouping, patterns, shapes, size, colour, thinking, matching, puzzles, sequencing, logic, memory, observation and listening.

The compilation represents substantial savings over the purchase of the individual titles. All four titles feature a selection of fun activities, each with three levels of difficulty that are fully narrated throughout – ideal for non-readers. Using language appropriate to the age range, the titles also feature extensive teacher's sections along with printable worksheets for use away from the computer.

- Percy Teaches Maths
- Percy Gets Into Shapes
- Percy Makes Thinking Fun
- Percy's Skills Builder

Features:

- All the games are fully narrated and include three levels of difficulty.
- Save money by purchasing this compilation CD, compared to the individual products.
- Each product includes printable activity sheets and an extensive options section.

Percy's Learning Box: 3

R824.00 (incl.VAT) (Single)

RT275-05-043.46

Percy's Learning Box 3 contains a compilation of 4 individual 'Percy' titles. With the topics covering money, purchasing items and giving change, spatial awareness, movement, direction, length, weight, capacity and animals in a variety of habitats, this compilation offers a fantastic saving over the purchase of the separate titles.

Percy's Learning Box 3 contains a wide selection of fun activities that are ideal for unsupervised use – even by non-readers (each title is fully narrated). Three levels of difficulty for each activity, printable worksheets and extensive teacher sections are also featured in this product.

Percy titles included in this compilation:

- Percy's Money Box
- Percy Gets Measuring
- Percy On The Move
- Percy's Animal Explorer

Features:

- Money-saving compilation supplied on one CD for ease of installation.
- Printable activity sheets to use
- Each title is fully narrated for unsupervised use.

Percy On The Move

R412.00 (incl.VAT) (Single)

RT275-05-043.34

The popular character, Percy the caterpillar, encourages children to explore position, direction, movement and spatial awareness through a range of fun activities for Foundation and Key Stage 1.

With spoken instructions and 3 levels of difficulty for each activity, the appropriate language is used for the age group and so is ideally suited for unsupervised use. A teacher's section and printable worksheets complement the activities that include a maze, picture grids, puzzles and games to develop the use of positional language.

20 User | R1,663.00 (incl.VAT) RT275-05-043.35

Percy's Animal Explorer

R412.00 (incl.VAT) (Single)

RT275-05-044.13

Join Percy the Caterpillar as he discovers different animals and the sounds they make. Locations include a farm, a garden, the jungle and under the sea. Colour photographs, animal sounds and speech successfully combine to encourage children to progress in a variety of educational games that reinforce ICT skills, together with picture and sound recognition.

Spoken instructions make the program suitable for unsupervised use and it is also compatible with touch screens. The games enable children to listen to different sounds and work out which animal makes them, find the odd one out, match pictures to sounds, learn where different animals live, complete a simple quiz and discover the sounds and characteristics of the animals.

20 User | R1,663.00 (incl.VAT) RT275-05-044.14

Percy's Body Explorer

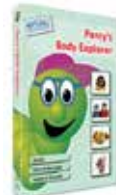

R412.00 (incl.VAT) (Single)

RT275-05-044.16

Percy explores the body and enables children to learn about related topics in this title.

Focusing on the themes of 'Ourselves' and 'Health & Growth', a selection of activities are provided for children to practice recognising and labelling parts of the body, understanding the senses and differences and similarities between people. Vocabulary appropriate to the age group is used throughout this title which also covers the topic of 'looking after yourself'.

Percy's Body Explorer is supplied with printable worksheets and features 3 levels of difficulty with narrated text. Suitable for unsupervised use, this title also includes an extensive teacher's section.

Percy's Music Club

R412.00 (incl.VAT) (Single)

RT275-05-045.4

Percy's Music Club enables children to explore some of the many elements of music in a selection of fun activities.

The activities, each narrated, and with 3 levels of difficulty cover the topics of pitch, duration, tempo and dynamics. This fun title also features both an on-screen keyboard and activity for children to compose music, which can be recorded and played back.

This Percy title, aimed at Key Stage 1 and suitable for unsupervised use, also includes a good selection of printable worksheets and an extensive teacher's section.

20 User | R1,663.00 (incl.VAT) RT275-05-045.5

Percy's Art Box

R412.00 (incl.VAT) (Single)

RT275-05-045.10

The art box activity provides a selection of simple drawing and painting tools to encourage children to be creative. In the usual, clear and clutter-free Percy style, children can also practice colouring on the computer and painting by numbers.

The collage tool makes it easy to create pictures with shapes and images, whilst the activities included also encourage children to begin to recognise colour names. All images can be printed. Percy's Art Box is narrated throughout for easy use and three levels of difficulty adapt the activities and tools available. An extensive teacher's section and printable worksheets are included in this title.

Sing & Play: Nursery Rhymes

R412.00 (incl.VAT) (Single)

RT275-05-042.7

Join Mother Goose as she encourages early literacy through eight traditional nursery rhymes. Each rhyme is introduced a line at a time and is fully narrated, with each word highlighted as it goes along.

The rhyme is then shown in full on screen and sung along to. You have the option to play the music on its own, the singing or even to record your own singing with a microphone. From here you can also use the open-ended picture sequencing and word movement activities to place pictures and words in different positions around the screen.

In addition, each rhyme is accompanied by its own activity each of which is specifically designed to develop a different key skill. Help Jack and Jill share buckets, find Bo Peep's sheep and much, much more.

Features:

- Toe-tapping singing!
- Beautiful hand-drawn artwork.
- Captivating activities that cover many key skills.
- Fully narrated throughout by Mother Goose

ABBYY FineReader PDF is a versatile PDF tool which empowers information workers to efficiently manage documents in the digital workplace. It harnesses ABBYY's AI-based OCR technology to make it easier to digitise, retrieve, edit, protect, share, and collaborate on all kinds of documents in the modern working world.

Features:

- Edit and organise PDFs
- Protect and Sign PDFs
- Compare documents in different formats
- Collaborate on and approve PDFs
- Create and Convert PDFs
- Automate digitization and conversion routines
- Digitize documents and scans with OCR
- Work easily with a universal PDF tool
- Create interactive PDF forms

Readit Software

R15,300.00 (incl.VAT) (Single)

RT275-05-023.3

RT275-05-024

Readit is a specialised software package for users with low vision or blindness. It enables you to swiftly acquire or import documents and convert them into a viewing style or format that enhances readability and speed.

Benefits:

- Users read faster and comprehend more of their documents
- Ease of use
- Acquire and store entire textbooks (in minutes)
- Incredible accuracy
- Licenced for 3 installs per user
- Import and Export your documents
- Quality of speech
- Automatic language switching

Duxbury Braille Translator

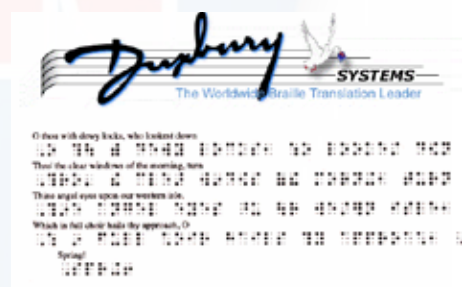

R13,500.00 (incl.VAT)

RT275-05-026

Duxbury Braille Translator Software (DBT) allows you to convert print-based text into braille and braille into text for printing. DBT can allow you to import Microsoft Word documents, translates these into braille, and sends the braille to your braille embosser or braille device.

Features:

- Built-in interline printing to have ink-braille and print together. This makes an easy proofing and teaching tool.
- Math/Science Code and Computer Braille translation for American, UEB, British, and French Braille.
- Intermediate levels (between grade 1 and 2) for all 11 South African languages
- Includes tactile graphics files
- Import files from the GOODFEEL Music Translation program from Dancing Dots.
- Import Microsoft Word 2007/2010/2013 files, as well as Open Office files.
- DBT allows languages other than the principal language to be embedded in the same file and treated as appropriate for the context. Now braille for foreign-language texts and language teaching texts is a snap.
- Bidirectional (print-to-braille and braille-to-print) translation for most languages.
- DBT is there to help you learn new languages. DBT includes support for the IPA notation, American-style Hebrew, and the form of Greek used by American scholars.
- Accurate presentation of both print or braille in either WYSIWYG (what-you-see-is-what-you-get) or coded (how-you-get-what-you-want) views in the word- processing screen, with easy switching between views

- A "translated line" showing the "other" form in either print or braille files
- Six-key chording for braille and print entry, not timing-based, compatible with most keyboards
- Help screens throughout the program
- Over 100 formatting & translation codes
- A user-extendable template library
- A spell-checker with 300,000-word dictionary
- A "Quick Find Misspelling" feature
- Embossing to all major braille printers; the first page may be a "banner" for job identification by personnel who don't read braille
- The Duxbury Braille Font for viewing braille dots within other programs
- Single-user and Network licences available.
- Unlimited technical support by telephone, email, fax, etc.
- An Internet user forum to communicate with other Duxbury users

Tiger Software Suite

R8,700.00 (incl.VAT) (Perpetual)

RT275-05-028

Tiger Software Suite provides you with everything you need to utilize your ViewPlus embosser to its full potential. Translate text to Braille directly with VP Formatter and generate industry leading tactile graphics with Tiger Designer. No matter your project, Tiger Software Suite will make you look like a pro for all your Braille needs.

Word and Excel Add-In Enhancements:

- Customizable UEB Grade 2 contraction tables are available so users can enable and disable certain contractions when learning.
- Update to Liblouis 3.21.0, and updates in Math translations.
- Reformatting of page layout to settings of current Tiger Profile and reformatting text
- Braille36 fonts instead of Braille29 fonts

Tiger Designer:

- Pattern Editor provides more default patterns to choose from and an intuitive user interface when using the pattern fill tool.
- Ink printing is possible to any mainstream colour printer.
- Open or import PDFs easily adjusting size, snap & rotation with braille text recognition.

Summary

TSS provides powerful Braille translation with intuitive controls directly from Microsoft Word and Excel. Complete with graphics editing software and full ink support, TSS provides everything you need to utilize VP embossers to their fullest potential. Starting with TSS v7.0, TSS is available as a yearly subscription including any updates in addition to the standard perpetual licence (one perpetual licence complementary with embosser purchase). Perpetual licences will require paid upgrades while subscription licences will support future new releases.

TactileView Software

R12,400.00 (incl.VAT)

RT275-05-028.2

TactileView creates pictures for people who cannot see. These pictures are transformed for them into tactile graphics. Blind people can read them by touch and interpret the tactile material. Easy to use tools are available for the design and production of tactile pictures, diagrams and maps.

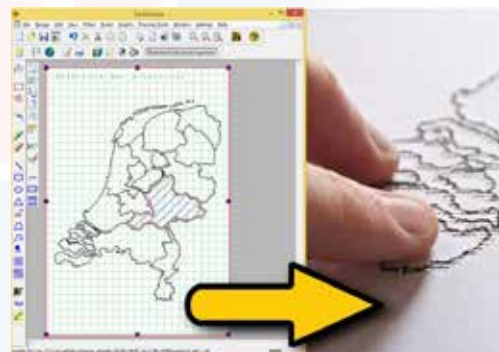

Text and graphics documents with Duxbury Braille Translator

TactileView is the perfect software when it comes to tactile graphics, while Duxbury Braille Translator (DBT) is widely used as a tool to create perfect braille translations. By combining TactileView with DBT, you can create documents that contain both tactile graphics and braille texts!

The TactileView concept consists of a design software for the creation of tactile graphics and an international web catalog. The design software allows production (printing) on a braille embosser or on swell paper (microcapsule paper).

What can TactileView do?

- Easy-to-use tactile graphics editor in many languages
- Fully accessible with the mouse, keyboard or screen reader
- Wide range of supported braille embossers
- Create designs for printing on swell paper or on our TactiPad drawing board with the Thinkable motorised drawing arm (MDA).
- Many drawing tools and image processing filters available for easy editing
- Thousands of ready-to-use designs can be downloaded from the TactileView catalog
- Importing images from a wide range of file formats and sources
- Math module creates graphs of any equation
- Produces tactile maps of any area on your desired scale with the RouteTactile map maker
- Extensive user manual available (online or pdf download)

Assistive Software

Dolphin SuperNova Magnifier

R4,300.00 (incl.VAT) (Single)

RT275-05-019

The Dolphin SuperNova Magnifier is a software program for low vision and Braille users. SuperNova Magnifier has crystal-clear magnification that enables you to easily browse websites, email your contacts and read printed letters. (Free 30 day trial of SuperNova on all editions)

Supports

- Supports Windows 7, 8.1 & 10, tablet, laptop and desktop computers

Crystal Clear Magnification

- 1.2 to 64 times magnification, with 28 sizes to choose from
- True Font magnification means text always looks beautifully smooth.
- 8 magnifier views including: full screen, split screen and a movable magnifying glass
- Automatic tracking ensures when you move your mouse pointer, type in text, or tab between links, the magnifier follows seamlessly

Bold fonts and sharpen images

- Turn on Bold Fonts and boost the clarity of magnified text in Windows and your favourite apps.
- Sharpen images to make the details easier to see. Perfect for viewing photos or low contrast website images.

Touchscreen Magnification – Easy as 1, 2, 3

- Use 1 finger to pan SuperNova's magnifier around documents and apps
- Use 2 fingers to pinch and stretch, changing the amount of magnification in any app
- Use 3 fingers to tap and change the colours and find more magnifier options
- SuperNova also includes a high contrast large print, onscreen keyboard which fits the screen width and lets you see what you're typing.

Large mouse pointers and focus highlights

- Set the pointer size independent of your magnification level so your text is never hidden by the mouse
- More than 200 pointers to choose from
- Choose from 6 highlighting schemes or create your own
- Highlight the mouse pointer, cursor, word, line, Windows focus and Dolphin Cursor
- Select your preferred shape, colour, tint, size and level of transparency

Magnified access to your favourite

- Microsoft Word, Excel, PowerPoint, Outlook
- Google Chrome, Mozilla Firefox and Internet Explorer
- Thunderbird and Windows Mail

Dolphin SuperNova Magnifier + Speech

R4,300.00 (incl.VAT) (Single)

RT275-05-020

Dolphin SuperNova Magnifier & Speech offers all the benefits of a screen magnifier but with added speech output to provide extra support for partially sighted computer users. It is ideal for use at home, in the workplace or for those in education. (Free 30 day trial of SuperNova on all editions)

SuperNova Magnifier & Speech can read documents, web pages, menus and button prompts and it can even talk while you type. It is suitable for differing levels of visual impairment and can be adjusted to suit your eyesight, if eyes become tired and strained during the course of the day.

It has all the features of SuperNova Magnifier with the addition of speech output which allows you to have your documents, emails etc. to be read out loud.

Speech features

- Create your perfect blend of magnification and speech to suit your unique sight requirements
- Integrates a professional magnifier and human sounding speech in one simple, supported solution
- The best touchscreen magnification and speech for Windows
- Reads aloud characters and words as you type, boosting confidence, accuracy and productivity
- Natural voices read and describe documents, emails and web pages
- Scan and read (OCR) your paper documents or inaccessible PDFs
- Includes minor updates for your software version

Each single user licence will allow installations on 3 separate devices for one user.

Dolphin ScreenReader

R4,300.00 (incl.VAT) (Single)

RT275-05-021

Dolphin ScreenReader is fast, reliable screen reading software for people who are blind or severely visually impaired.

ScreenReader can be customised to meet your exact requirements:

- Range of customisable speech settings
- Support for a wide range of braille displays
- Fast, reliable access to Microsoft Office and Windows apps
- Explore the screen with a keyboard or braille display
- Connect a scanner to Scan & Read printed text
- Install on a Windows PC, laptop or carry on a USB
- Knowledgeable support from Dolphin accessibility experts

Natural-sounding voices

- Choice of natural and synthetic voices
- 30 different accents & languages available
- Speak-as-you-type functionality
- Turn speech on and off quickly
- Control the description verbosity

Braille Display Support

- Read and type with braille display
- Supports over 60 braille display models
- Supports over 50 braille codes
- Includes Unified English Braille Code
- Supports uncontracted & contracted braille

Access Apps and Documents

- Complete access to Windows apps
- Robust support for Microsoft Office
- Reliable access to web browsers
- Scripting service available for bespoke app support

Explore with the keyboard

- Keyboard access to all applications
- Reduces the need for a computer mouse
- Hotkey controls and shortcuts
- Navigate using Item Finder or Place Markers on complex documents and web pages

Scan & Read Aloud

- Scan and read printed documents, labels, articles and inaccessible PDFs
- Make printed text accessible with OCR
- Convert paper documents to MS Word
- Export scanned text to Google Drive

Accessible Reading

- Includes EasyReader for Windows
- Borrow from accessible book libraries
- Use talking newspaper services
- Read whole documents in one go
- Save, share and send ePub files

ICT Based Devices and Solutions

BrailleOne (Safari)

R27,950.00 (incl.VAT)

RT275-04-060

The Safari's 20-cell refreshable braille display and Perkins-style keyboard provide a comfortable reading and writing experience. Superior internal intelligence and multiple modes of connectivity allow students to use the Safari as a stand-alone notetaker, or as a braille display to edit assignments on the computer.

Featuring Text-to-Speech, the Safari is the perfect device for learning and reinforcing braille literacy skills. As a portable braille display with local apps, like an editor and library, this device is perfect for improving productivity whether you are in the classroom or the workplace.

Features:

- Text-to-Speech support with many different options including Read All, Read Text After Pan, Read Text Under Cursor, Typing Echo, Delete Echo, and more.
- Basic editor to function as a user's pen and paper.
- Braille editor for creating and editing BRF files. Can also edit BRL files.
- Book reader to download and read books in braille.
- Calculator to perform basic mathematical calculations.
- Clock to check the date and time.
- Perkins-style keyboard and 20-cell refreshable braille display
- Functions as another device's braille display when connected via USB or Bluetooth; functions as a stand-alone device when not connected HumanWare signature thumb keys and home button
- SD card slot and USB host port for flash
- Supports .doc, .docx, .txt, .brf, and .brl files.
- Small and lightweight
- Fits in a purse, laptop bag, or backpack

BrailleNote Touch Plus 18 Cells

R88,700.00 (incl.VAT)

RT275-06-061

The BrailleNote Touch Plus (18-cell) is a powerful, versatile tool designed to empower users who are blind or visually impaired. By combining Braille literacy with modern technology, it enhances communication, learning and accessibility in various aspects of daily life. This powerful note taker, equipped with an ultra-fast processor, makes it easy to write assignments or create graphics without making noise.

Features:

- Powered by Android 8.1 Oreo.
- Provided with EasyReader Plus, a new reading application specifically tailored for BrailleNote Touch Plus.
- Optimized Chrome web browsing.
- Filled with educational tools including math learning and graph creation.
- Perfect braille translation in contracted or uncontracted braille, including UEB and multiple languages.
- Use Exchange, POP or IMAP email accounts.
- Fully supports standard keyboards to enhance transferable skills.
- Cooperative tool via its touchscreen provides instant feedback.
- Optimized user experience powered by KeySoft.
- Enhanced web view navigating.
- Innovative tactile graph view.
- Free and automatic updates.
- Modern and simple menu-driven interface.
- Familiar keyboard shortcuts to efficiently accomplish tasks.
- Professional documents created with KeyWord.
- Printed material instantly converted to braille using the included optimized KNFB Reader application.
- Team collaboration by sharing documents using Google Drive or other cloud services.
- Synchronized emails, contacts and calendars with KeyMail.
- Includes a removable Perkins style keyboard.

ICT Based Devices and Solutions

Prodigi Connect 12 with Camera

R70,800.00 (incl.VAT)

RT275-04-099

Combining the power and connectivity of mainstream technology with the efficiency and ease of use of assistive technology, Connect 12 is a unique, powerful, and portable digital magnifier.

This versatile device has a range of features designed to address low vision needs, including crisp, high-definition magnification up to 24x, online book access, a dictionary, calculators, Google search, email, app downloads, and an optional distance camera. Best of all, if you suffer from eye fatigue, text can be read out loud! It is the ultimate independent living aid that can be used anywhere. Now with an ALL NEW TABLET!

How does this product change your life?

Connect 12, is a versatile video magnifier that fits perfectly into everyday life. It lets you stay connected in a variety of environments – classrooms, workplaces, or on the move. It's your reading companion, studying, working, and exploring, with the power of a 12-inch tablet.

It integrates popular technologies such as Google Suite and Microsoft 365 and provides access to applications via Google Play Store. The OCR and TTS functions make reading easy, while Prodigy software provides educational tools like calculators and dictionary functions.

For users with low vision, Connect 12 magnifies from 1x to 40x, making study and working life easier. This makes it useful in the learning environment and beyond, helping professionals with tasks, meetings, and access to information. External cameras enable remote viewing, and its lightweight design facilitates easy portability. Connect 12 video magnifier redefines independence, connectivity, and accessibility.

Functional specifications:

- Kodak SL-10 Distance Camera
- 1x – 40x live magnification
- 1x – 80x capture or image
- Full HD 12 inch touchscreen with gestures
- 13MP ultra high-definition camera
- LED light in stand
- Image capture with auto-rotate
- Import JPEG or PDF
- Export JPEG, TXT or PDF
- Diamond edge font
- Optical character recognition in 58 languages
- Voices in 20 languages
- Install up to 4 voices at a time
- Full page, column, and line reading modes
- Customizable: Reading modes, colour schemes (20), contrast, system fonts
- Standard, scientific, graphical calculators
- Dropbox, Google docs, and other apps pre-installed
- Wi-Fi and Bluetooth connectivity
- 32GB internal storage
- Up to 64GB removable storage (*not included)
- 7 hours continuous use (tablet only)
- 4.5 hours continuous use (using stand led light)

- Applicable Brailers: Perkins Brailier, APH Light Touch Brailier, Electric Perkins Brailier, Large Cell Perkins Brailier, Large Cell Electric Perkins Brailier, Unimanual Perkins Brailier

Braille Paper Reel

R8,500.00 (incl.VAT)

RT275-04-081

Continuous Reel 135g +/- 180 kg 280 mm wide 1.2 m outside diameter

Unlike traditional copy/printing paper, braille paper is a thick stock paper used specifically with braille embossers to print reading material for the blind and visually impaired. Braille paper holds the shape of the braille dot better than traditional paper and lasts longer – ultimately making the reading process easier and more enjoyable for a blind individual. Braille paper should also generate less paper dust and minimise static electricity, which are generated during the braille printing process – both of which can damage the internal components of a braille printer.

Tangible Magic Paper - A4 100 Sheets

R2,020.00 (incl.VAT)

RT275-04-083.3

Piaf produces high quality tactile graphics using high quality heat sensitive swell paper called Tactile Magic Paper. It is ideal for people who are blind or have low vision. Piaf's controlled heat source causes any black lines, letters or shapes that are drawn, printed or copied onto the capsule paper to swell. The result is an instant tactile graphic.

It is especially effective when used with the Tactile Magic Paper. This paper with its superb characteristics allows the user to run it through the PIAF multiple times without compromising the quality of what has already been puffed up. This feature makes producing and handling tactile images more interactive and dynamic.

- Perfect texture
- Pleasant for touch
- High resolution, clear and sharp lines
- Keeps existing puffed up lines intact even after several runs through the PIAF
- No issues with printing or copying
- No smell, no colour change
- Never sticks or dries

Zyfuse Swell Touch Paper

R2,087.00 (incl.VAT)

RT275-04-083

With our Swell Touch paper, you can quickly create durable graphics with varying heights, patterns, textures and colours. These graphics can be shared amongst readers over and over again.

How does it work:

Swell Touch paper has two sides – a white, slightly textured side and a smooth liner. The textured side is where you will print or draw your graphic. This specialized coating we developed is non-toxic and safe for all. When a black line, or carbon-based inks, are drawn on this coated paper and exposed to heat through our Swell Form machine, these black areas will swell. Colours can also be printed, or drawn, on Swell Touch paper, however, they will not swell and are typically used to make a graphic visually pleasing.

Paper Size:

A4; A3; 8.5" x 11"; 11" x 11.5"; 11" x 17 | Each box contains 100 sheets of Swell

Blind & Low Vision Items

Free Online Training & Support on Products Purchased from Edit

Product Description	Price	Product Code
Ambutech Folding Cane with Rollertip Aluminum Cane with Hook Style Marshmallow Roller Tip. Constructed of heavy-gauge aluminum that results in strong joints and excellent tactile transmission. They are easy to fold and have an extra knot that allows for easy replacement of the hook-style tips with the Ambutech tips listed on this page. They come with a marshmallow roller tip and a ribbed putter handle. Canes are available in 2" increments from 36" to 60" in 4, 5 or 6 sections, depending on the size. When ordering, indicate both the cane length and preferred sections.	R970.00 (incl.VAT)	RT275-06-001
		
Money Stick (Templates) Money Templates are also used to measure banknotes, they come in various styles, including an aluminium device, which can only be used for identifying paper money.	R55.00 (incl.VAT)	RT275-06-003
		
Liquid Level Indicator A Liquid Level Indicator is an assistive device used by people with visual impairment to indicate how full a vessel is. This unit sits on the rim of the cup, mug, glass etc. and gives an audible tone when the liquid reaches the bottom probe, the tone will speed up when the second probe is reached. Powered by 1 x CR2032 Lithium battery.	R400.00 (incl.VAT) (Single)	RT275-06-004
		
Plastic Signature Guide The signature guide helps to keep your writing in a straight line with letters at an even height. If you are partially sighted, the contrast between the thick black frame and the paper you are writing on will make handwriting easier. Signature Guides are ideal for persons who have trouble seeing where to sign important documents, like a cheque, receipts, or even your tax return. It is a simple tool that helps you to sign on the dotted line every time. Signature guides are typically made of cardboard or plastic and work by using a cutout space or raised lines to help you stay in place.	R48.00 (incl.VAT) (Single)	RT275-06-005.2
		
Goalball - Official Blue This is a product for the blind that many have used around the world to play the sport of Goalball. This sport is played on an international and paralympic level by athletes. The Goalball resonates a loud, crisp, sleigh-bell sound when it is rolled. The Goalball is meant to be rolled and not bounced. Made of natural and synthetic rubber. Measures 9.5 inches, weights 2.75 pounds.	R2,380.00 (incl.VAT) (Single)	RT275-06-006
		

- Blue rubber
- IBSA standards
- Weight 1250 grams
- Size 7
- Clear jingling sound

- Provides brilliant optical clarity
- Suitable for reading maps, charts, spreadsheets, newspapers, telephone directories, catalogs, photographs, etc.
- great for hobby work such as stamp collecting, coin collecting, crafts and more

Blind & Low Vision Items

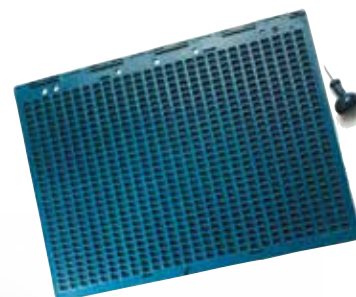

Manual Braille Slate & Stylus

R548.00 (incl.VAT)

RT275-06-012

This is a very large, page sized, heavy-duty plastic Braille slate with tape slots. The even numbered lines of the slate are labeled in Braille for your benefit. Accommodates full pages, smaller sheets or tape. It has 30 cells and 27 lines. Holes are spaced along the side, where it is hinged, for inserting the slate into a binder. Pins on top. A matching, equally durable knob mushroom stylus is included.

Tatrapoint

R18,150.00 (incl.VAT)

RT275-06-013

Tatrapoint is a manual six-key braille writer that is lightweight, reliably strong and requires minimum physical effort to write braille. Easy on the wrists!

Braille users of all ages will find it perfect for braille writing for work or otherwise. Spacing between keys can be adjusted to accommodate different hand sizes and positioning. High contrast colour schemes make Tatrapoint features easier to find and appealing to younger users. A briefcase for transporting the Tatrapoint and documents is included.

Braille Output: The typewriter embosses Braille characters on thick paper, enabling blind users to write in a tactile format readable by other Braille users.

Six-Key System: It uses six keys for the six dots of the Braille cell (plus a space bar, backspace, and line feed), allowing users to produce all standard Braille characters.

Mechanical Operations: It is manually operated (no electricity needed), making it durable, portable, and useful in locations without reliable power.

Sturdy Construction: The Tatrapoint is known for its robust and reliable build, designed to withstand regular use in schools, homes, and professional environments.

Paper Feed System: It typically uses a roller and clamp system to feed and hold the Braille paper in place while typing.

Compact and Portable: Despite being robust, it is relatively compact and often comes with a carrying case, making it practical for mobile use while typing.

Mano XL Magnifier

R26,380.00 (incl.VAT)

RT275-06-026.3

The brand new opto-electronic magnifier MANO XL offers a 7"-display, a continuous magnification of up to 37x and is compact in design and light weight. Due to the auto focus and the high resolution HD-camera, all text and pictures are being displayed in razor sharp quality and contrast enhanced.

Features

- Large, matt 7" display (approx. 17,8cm diagonal)
- Continuous magnification from approx. 2x to 37x
- In all magnification levels a razor sharp picture display due to HD camera and autofocus, snapshot function
- Easy to operate, intuitive navigation via joystick
- Eight weight and energy saving
- Foldable stand, HDMI port, USB port

Mouse Magnifier

R2,420.00 (incl.VAT)

RT275-06-028

This lightweight and easy-to-use hand held magnifier is the size of a computer mouse. The unit connects directly to your TV or via a TV/USB converter (not supplied) to a computer.

Wheels are located on the bottom of the unit to allow guidance when moving the reader. It has 7 zoom levels giving up to 70x magnification on a 20" screen, (Please be aware this magnification varies depending on the screen size - the larger the screen the greater the magnification).

Viewing modes are; black background with white text, high and low contrast - white background with black text or full colour. The freeze frame feature allows you to take a snapshot of the item you are looking at and zoom in or out on the captured frame. The magnifier can be used horizontally above the text or, using its adjustable focus, at longer ranges—i.e. to view objects at the far side of a room or even greater distances. Supplied with a carry pouch, connection cables and mains adaptor.

Blind & Low Vision Items

Explorē 8

R25,520.00 (incl.VAT)

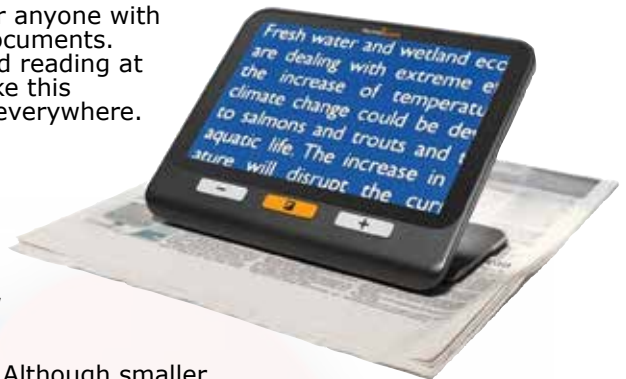

RT275-06-026

The explorē 8 is a touchscreen portable magnifier that is ideal for anyone with vision loss who needs an electronic reading aid for magnifying documents. With a magnification of up to 30X, it is perfect for small tasks and reading at home or on the go. The 8.0-inch screen and compact design make this portable digital video magnifier the easiest to transport and use everywhere.

How does this product change your life?

Lightweight and powerful, the explorē 8 is ideal for active people looking for a large screen and optimal portability to maintain their lifestyle. This magnifier features two 21-megapixel cameras: one for document reading at 15 cm (or less), and a second to see clearly at distances for things like street and store signs. You can also save your favorite images and view them on a large TV screen.

The explorē 8 boasts the largest screen in the smallest package. Although smaller, lighter, and more affordable than most 7-inch magnifiers, it provides a screen more than 30% larger that also delivers unmatched image quality. With its superior ergonomics and long-distance viewing, explorē 8 has the power to help you indoors and out.

Functional specifications

- 2-30x magnification with autofocus
- HD image quality

Penfriend 3 - Voice Labeling System

R4,050.00 (incl.VAT)

RT275-06-038

Introducing the upgraded PenFriend 3 Voice Labeling System! This best-selling, low-cost, audio labeler for blind and visually impaired users lets you label anything and everything with discreet audio labels all in your own voice. Easily record and re-record information using this versatile, pocket-sized, easy-to-use labeling system. You can instantly play back the recordings anywhere simply using the PenFriend 3.

Identify objects with voice labels and magnets

- Upgraded design replaces the PenFriend 2 with 4 easy-to-use yellow tactile operating buttons that contrast against black casing
- Record your voice and mark household items onto self-adhesive labels
- Simple on/off function for recording prevents you from having to hold record button
- Transfer mp3 music files to your PenFriend 3

Ray Electronic Mobility Aid for the Blind

R7,708.00 (incl.VAT)

RT275-06-040

A lightweight, easy-to-use Ultrasonic Obstacle Detector for the blind. It scans the environment with an ultrasonic cone, alerts with sound or vibration, and has a light sensor for enhanced navigation.

Features

- Compact, lightweight complement to a cane
- Detects obstacles up to 9.35 feet away
- Alerts you with an audible signal or vibration (or both)
- Recommended for familiar areas; doesn't detect drop-offs and other possible hazards
- Includes lanyard and 2 AAA batteries

Important note: Ray is intended as a complement to traditional canes for the blind, not as a replacement. While Ray recognizes obstacles in your path, it cannot detect drop-offs such as curbs.

StellarTrek

R32,200.00 (incl.VAT)

RT275-06-041

The StellarTrek, an AI-driven GPS and OCR device, empowers individuals with visual impairments by providing unparalleled assistance in daily navigation. Tailored to meet the needs of the visually impaired, this cutting-edge device combines state-of-the-art GPS functionalities with an intuitive tactile interface, ensuring seamless guidance through voice prompts.

This innovative device is equipped with a built-in camera and advanced AI capabilities, enabling it to identify street addresses, entrances, and landmarks, delivering precise audio guidance for the final 40 feet of your journey. The newly introduced pedestrian crossing detection mode with anti-veering technology will help you safely find the proper place to cross, and give you directions if you are veering off-course.

Moreover, its versatility extends to barcode scanning for product details, colour recognition, and text-to-speech functionality—reading street signs, ingredient lists, receipts, or nutritional information aloud. The StellarTrek is a comprehensive solution designed to enhance independence and foster autonomy!

How does this product change your life?

How about a digital orientation assistant designed to help you travel independently and accomplish your daily tasks? Like a friend always ready to lend a hand, whether at home, on the move or shopping, it recognizes and reads aloud colours, barcodes and text in 14 different languages. With all-day battery life, there's no fear of your smartphone running out of steam for navigation tasks. Its advanced features and a tactile interface, StellarTrek now makes a world of possibilities available, independently and safely.
