

PORTABLE WELDING SIMULATOR

VR-AR Based Simulator

VOCATIONAL TRAINING SIMULATOR

SANLAB combines deep expertise in robotics and simulation with a customer-focused approach to deliver industry-leading vocational training simulators.

Portable Welding Simulator provides realistic training environment powered by VR and AR technologies, offering realistic training with a highly precise mask and torch motion tracking system. Designed to support skill development in SMAW, MIG/MAG, TIG, and FCAW welding processes.

APPLICATIONS

- Technical & Vocational Schools
- Industrial Training Centers
- Technical Colleges & Universities
- Shipbuilding
- Automotive
- Aerospace

VR-AR BASED

- Immersive experience
- Easy setup
- Future-ready

ADVANTAGES

- Cuts costs
- Eliminates accident risks
- Increases safety
- Lowers operating & maintenance costs
- Protects equipment
- Enables all-weather training
- No worksite required
- Eco-friendly use
- Realistic experience
- Multi-language support
- QR Code Enabled Automatic Calibration System
- Internet Independent Wireless Image Transmission

DIMENSIONS

Overall Dimensions (L-W-H)	0.37 m - 0.47 m - 0.57 m
Net Weight (product only)	45 kg
Shipping Dimensions (L-W-H)	0.55 m - 1.62 m - 0.85 m
Crate Weight (total)	85 kg
Packaging Type	Wooden crate

SCENARIOS

- SMAW-Shielded Metal Arc Welding
- MIG-Metal Inert Gas Welding
- TIG-Tungsten Inert Gas Welding
- FCAW-Flux-Cored Arc Welding

PORTABLE WELDING SIMULATOR

VR-AR Based Simulator

VOCATIONAL TRAINING SIMULATOR

SPECIFICATIONS

Touch Screen	13.3" touch screen
Audio System	Surround stereo
4 Real Torchs	SMAW, MIG/MAG, TIG, FCAW
Work Pieces (optional)	Multiple workpieces
Welding Mask	AR/VR supported headset
Power Supply	220VAC, 50 Hz
Minimum System Requirements	Intel(R) Core(TM) i7 - 16 GB Ram - 500 GB SSD NVidia GeForce RTX 3060 - Windows 11 Wireless Combo Keyboard Mouse

SOFTWARE

- Weld options: straight pass, curved weave, zigzag, triangular pattern
- Weld direction selection: left-to-right and right-to-left
- Support for American (AWS) and European (ISO) welding standards
- Compatible with both left and right-handed use
- Torch angle adjustment for push and pull techniques
- Virtual materials: stainless steel, steel, copper, and aluminum
- Real-time error detection and feedback
- Adjustable parameters: amperage, voltage, material thickness, and wire thickness

SOFTWARE

- Analysis of position, distance, speed, and angle parameters
- Analysis of penetration, porosity, and spatter
- Session recording, video playback with rewind/fast-forward, angle adjustment, and scoring system
- Student-based data storage and training history tracking
- Customizable scoring parameters with advanced management interface
- Touchscreen interaction without removing the welding mask
- Supported Welding Positions: PA, PC, PF/PG, PE, PH/PJ, H-L045/J-L045, PB, PD, 1F, 2F, 3F, 4F, 1G, 2G, 3G, 4G, 5G, 6G
