

Configuration:

LWS-02-A1, 2 Channel Wi-Fi System with 2 Receivers (North America)

LWS-02-E2, 2 Channel Wi-Fi System with 2 Receivers (United Kingdom)

LWS-02-E3, 2 Channel Wi-Fi System with 2 Receivers (European Union)

LWS-02-E4, 2 Channel Wi-Fi System with 2 Receivers (Australia)

Product Overview:

The LWS-02-A1 system offers a streamlined audio streaming solution. It can deliver audio to ListenWIFI dedicated receivers and guests' smartphones via the ListenWIFI mobile app. The system connects to your existing Wi-Fi network to stream audio to up to 500 users.

The ListenWIFI Audio Server LW-110-02 can broadcast two channels of analog audio to an audience of up to 500 users, streaming directly to smartphones or LWR-1050 Wi-Fi Audio Receivers within the venue. This ensures compliance with assistive listening requirements and addresses challenging audio environments, providing guests with crystal-clear audio.

ListenWIFI servers are scalable and flexible, allowing for the easy addition of more servers to handle increased channel counts and user numbers. They feature automated channel selection, connecting listeners to the right audio based on their location with the integration of LA-490 beacons.

The user-friendly ListenWIFI Windows® software enhances management capabilities, allowing for customization of mobile apps to reflect your venue's branding, including tailored welcome messages, sliding banners, and promotional offers, all seamlessly managed through the ListenWIFI Manager software.

Ideal for diverse venues like classrooms, places of worship, and theaters, ListenWIFI Audio Servers offer superior audio quality and low latency, significantly enhancing the listening experience at your venue. ListenWIFI introduces innovative ways for users to engage with audio content.

Highlights:

- **Global ALS solution** – worldwide compliance (with receivers and neck loops)
- **Flexible listening options** – Dedicated receivers or guests' own smartphone
- **Uses existing wireless network (Wi-Fi)** – provides broad venue-wide coverage
- **Scalable solution**– seamlessly add more servers for additional channels/users
- **Up to 500 users** – scalable with more servers
- **2 channels per server** – scalable with more servers
- **Analog inputs** – consumer and professional
- **Superior audio performance** – Industry-leading latency
- **Network flexibility** – supports small networks to large enterprises
- **Supports triggered audio** – using LA-490 Beacons
- **QR code channel access** – mobile apps scan QR codes for channel selection
- **Public Address override** – venue wide broadcasts for public announcements
- **LW Manager software** – Complete setup and management system (Windows®)

Includes:

One (1) LW-110-02 ListenWIFI 2 Channel Wi-Fi Audio Server Two (2) LWR-1050 ListenWIFI Wi-Fi Audio Receiver Two (2)

LA-164 Ear Speaker Two (2) LA-445-BK Breakaway Lanyard Two (2) LA-438 Advanced Neck Loop (Adult) One (1) LA-423 4-Port USB Charger One (1) LW-307 ListenWIFI Hearing Assistance Signage
